Hi Phyllis,

The projected **20.81%** reflects the impact of the 7-11 Seaway rate and ASF increases alone.
When accounting for both the OKMart and 7-11 Seaway rate increases, the overall CNTW PPO% is projected to be **20.64%**.

Please let me know if further clarification is needed. Thank you.

Best regards,
Henry

Hi Phyllis,

I am writing to seek your approval for a rate update regarding TW Seaway LM vendor, **7-11 Seaway**. Please find the details of the increase and the projected cost impact below

7-11 Seaway LM Rate Increase

- Reason: Due to a 28.6% YoY 7-11 Seaway channel volume decrease in 2024-2025, they cited their internal cost increases can no longer support significant price disco
- Adjustment: For orders received by 7-11 **starting from 1st/Jan/2026 (LM inbound from 1st/Jan)**, the LM rate will **increase from 28 NTD to 38 NTD** per parcel.
- Reference: The formal notification email from the vendor is attached for your review.

Cost Impact and Rate Summary:

according to Nov/2025 data

TW	Date	ASF (USD)	CPO (USD)	Cost Component (USD)			
				WHS cost/pc	LH+CC cost/kg	LM cost/pc	Other Co
38018 - 蝦皮海外 - 7-11（海運）	Current	$1.77	**$1.96**	$0.09	$1.79	**$0.91**	$0.1
	Starting 1/1/2026	**$1.98**	**$2.26**	$0.09	$1.79	**$1.21**	$0.1

- We have realigned with the TWCB team to update the ASF subsidy cost-bearing logic. Starting **1st/Jan/2026**, the subsidy will shift from SLS-borne (FSS sellers with 0 markets. As a result, the ASF for this channel is expected to **increase** by USD 0.21, which will partially offset the 7-11 LM rate increase. Previous content attached for yo
- The CNTW overall PPO% is projected to shift from **21.34%** (Nov. 2025 baseline) to **20.81%** due to the 7-11 Seaway channel ASF increase and LM rate increase.
- With channel volume share of **13.16%**, CNTW overall PPO will **decrease** 0.011 USD.

*Effective Time: 2026-01-01

Subject: Re: [For Approval & Rate Card Setting]-[CNTW 7-11 Seaway Channel]-Effective on 1-Jan-2026
Hi Hungyu,

Confirming: The 7-11 Sea FSS shop group is being removed effective from 2026/01/01.
They were using the default rate card then.

Thanks,

- As the FSS pool increases, **ASF will decrease** from 1.77 USD to 1.57 USD;
- As LM cost rises, **CPO will increase** from 1.96 USD to 2.26 USD;
- CNTW overall PPO will **decrease** 0.066 USD (volume share 13.16%).

**For details, please refer to the table below:*

TW	Date	ASF (USD)	CPO (USD)	Cost Component (USD)			
				WHS cost/pc	LH+CC cost/kg	LM cost/pc	Other Cost/pc
38018 - 蝦皮海外 - 7-11（海運）	Current	$1.77	**$1.96**	$0.09	$1.79	**$0.91**	$0.11
	Starting 1/1/2026	**$1.98**	**$2.26**	$0.09	$1.79	**$1.21**	$0.11
	if no change	**$1.57**	**$2.26**	$0.09	$1.79	**$1.21**	$0.11

Next step:
To further mitigate the negative impact caused by the 7-11 seaway LM rate increase, SLS and TWCB will continue to cooperate and guide order volume from 7-11 seaway

1. Starting from 1/Jan/2026, differentiate the conditions for granting FSV for seaway channels, and begin canceling free shipping for the 7-11 seaway channel from I
2. Monitor performance after the launch of SPX seaway channel. SLS will proactively enable SPX seaway channel for items that meet channel restrictions when nee
3. Adjust the priority of channel display on buyer-side filter and on the checkout page to increase the likelihood of SPX seaway channel being selected.

Hi Paul @Yingzhou Huang ,

Grateful if you could help with the rate card configurations after we receive Phyllis's approval.

Seller ASF: rate card for shop group - 160 - 711_Sea_FSS (rate ID: **9097 & 9098**), suggest to be disabled;
ESF: rate card for shop group - 160 - 711_Sea_FSS (rate ID: **9096**), suggest to be disabled;

Seller communication will be done before the change is deployed.

May you have any questions, please do reach out to me at any time. Many thanks to all.

Best regards,
