Highlights

1. **[Topline] Jan proj ADO 156,771 (99% RR, -2% MoM, ADO as %CB +0.55pp MoM); proj ADG $1.6M (101% RR, -1% MoM, ADG as %CB +0.81pp MoM)**
    a. **Local SIP ADO proj 99% RR, ADO as % CB +0.50pp MoM**. Missing target due to 1) MY Raya trends slower to ramp up than expected; 2) marketing spending running conservatively to control P&L. Expect topline to hit target in 2nd half of Jan
    b. **WH cross-selling proj 74% RR**, mainly due to CB Choice LFF (MYSG) proj 50% RR, missing ADO target due to limited number of LFF eligible SKUs (PC3>0, ADIS>1), leading to SKU count -19% MoM. Next step to revise CB Choice LFF ADO target from Feb onwards
2. **[P&L]**
    a. **Local SIP P+SA MTD daily PC2 achieved breakeven, and healthy at $5,214**, mainly driven by IDSIP reduced rebate spending and IDPH shipping loss recovery with new weight correction SOP

b. **CN SIP SA MTD daily PC2 maintained breakeven, and healthy at $458**. next step to ramp up spending to maximise topline growth
c. **Overall combined PC2 at SHP level at $84k daily**, +13% MoM

B/ ADO breakdown (multi-lanes/segments BUs only)

BU/program	Segment	Current month (Dec-24)						Target	
		MTD	Projection	Target	RR (proj)	M-1	MoM (proj)	Dec 24	Jan 24

WH cross-selling	Local SCS cross selling	1,112	1,258	1,306	96%	1,171	7%	1,306	1,428
	...MYSG	1,106	1,228	1,276	96%	1,157	6%	1,276	1,395
	...VNSG	6	30	30	100%	14	115%	30	33
	CB Choice LFF (MYSG)	1,110	1,066	2,150	50%	1,567	-32%	2,150	1,774
	CB MP LFF (MYSG)	1,122	822	802	103%	1,019	-19%	802	1,173
	Total LFF cross-selling	**3,344**	**3,147**	**4,258**	**74%**	**3,757**	**-16%**	**4,258**	**4,375**
Taobao program	Taobao Direct	3,866	3,866	4,044	96%	2,866	35%	4,044	4,873
	Taobao SIP	181	181	308	59%	79	130%	308	725
	Total Taobao program	**4,046**	**4,046**	**4,352**	**93%**	**2,944**	**37%**	**4,352**	**5,597**

Highlights:

1. **MYSG proj 124% RR, +11% MoM**, in line with platform MoM growth
2. **IDMY proj 90% RR, -3% MoM**, due to Raya trends are later than expected. Will expect ADO to raise in 2nd half of Jan

C/ BWT

BU	Lane	Current month (Dec-24)					Target	
		MTD	Target	RR (MTD)	M-1	MoM (MTD)	Dec 24	Jan 25
Local SIP / Direct (top 10 lanes)	IDMY	5.6	6.6	118%	6.0	-0.4	6.6	6.6
	MYSG	3.5	4.0	116%	3.5	0.0	4.0	3.5
	IDPH	6.4	6.8	107%	7.3	-0.9	6.8	7.0
	VNMY	8.0	8.8	109%	8.0	0.1	8.8	8.0
	IDSG	4.9	5.0	102%	5.5	-0.6	5.0	5.0
	VNPH	8.5	8.9	104%	8.7	-0.1	8.9	8.5
	MYPH	8.3	7.4	89%	8.9	-0.7	7.4	7.5
	MYTH	7.5	7.4	99%	7.4	0.05	7.4	7.4
	VNSG	7.3	7.3	100%	6.9	0.3	7.3	7.2
	VNTH	7.4	8.1	109%	7.3	0.1	8.1	7.2
WH cross selling	MYSG	2.1	2.5	121%	2.5	-0.4	2.5	2.5
	VNSG	6.7	6.5	97%	6.0	0.8	6.5	6.0

Highlights:

1. **IDPH: 107% RR, -0.9 days MoM;** mainly driven by linehaul capacity recovery
2. **IDSG: 102% RR, -0.6 days MoM;** mainly driven by tightening of vendor's operation and the recovery of SG terminal clearance speed. Shipment arrived after 5 Jan were able to have same-day clearance and handover
3. **MYPH: 89% RR, -0.7 days MoM;** MoM BWT improvement driven by linehaul capacity recovery. However BWT missing target due to flights to CEB being cancelled in early Jan, resulting in a

longer waiting time for 20% orders. The flight cancellation is a one-time issue due to the airline's internal adjustment. Expect BWT to hit target next week

4. **VNSG SCS: 97% RR, +0.8 days MoM;** mainly driven by increasing FM LT and waiting time in SIP TWS. Next step to review IB cut-off time with the VN L mo ogs team [ETA to implement: next week]

D/ Ops OKR

Metric	BU	Current month (Jan 25)					Target	
		MTD	Target	RR (MTD)	M-1	MoM (MTD)	Jan 25	Feb 25
CRR	SIP (local + CN)	77%	90%	85%	78%	-1%	90%	90%
CSAT	SIP (local + CN)	88%	90%	98%	88%	1%	90%	90%
Return & refund	Local SIP	1.34%			2.52%	-1.18%		

Highlights:

1. CRR: In progress of improving CRR data accuracy as it is not consistent with the local team. From sample check, SIP CRR is ~ 90% since no chat pending reply for major top lanes

E/ SIP system/product

#	Biz ETA	Confirmed ETA	Feature Name	P	Description	Status	Pipeline Submitted	OKR
1	Q4 2024	End Jan 2025	SIP/Seller set regional discount	P0	Seller co-investment to drive biz growth with a projected ADGMV uplift of $33.5k	PRD	Q3 2024	Growth
2	Q1 2025	TBC	MYSG SC	P0	Facilitate MY Sellers' selling in SG, e.g. listing migration, shop mngmt etc	BRD	Q3 2024	Growth
3	Q4 2024	TBC	Order snapshot table for CBSIP and Local SIP	P1	Optimize existing order snapshot table for CBSIP and implement for Local SIP to account for P&L efficiency USD547k annually	BRD	Q4 2024	Cost Reduction
4	Q4 2024	End Jan 2025	Local SIP Settlement Price	P1	Long-term solution for Local SIP to mitigate losses incurred from mismatched P and A order prices as a result of price sync related issues	BRD	Q4 2024	Cost Reduction
5	Q4 2024	TBC	SIP support MYSG FBS (FBS x SIP)	P1	Using SIP to migrate listings for MY local and CB FBS to SG to boost ADO	BRD	Dec 2024	Growth
6	Q4 2024	Dec 2024	MYSG minimize TWS	P0	To implement one-AWB for MYSG SIP and direct channel thus minimize TWS operations to save lead time and labor cost	Live greyscale	Q3 2024	Cost Reduction

1. MY+SG
    a. Performance: TB Fashion ADO 4k (93% RR, +37% MoM), missing target mainly due to SKU migration challenges leading to lower SKU count than projected. **Next step to launch/explore product solutions to resolve migration challenges**
        i. Taobao Direct: seller migration tool to be launched on 14 Jan
        ii. Taobao SIP: checking on product feature to publish MTSKU to multiple shops; ETA to be updated in the next weekly email
    b. SKU crawling
        i. Out of 60k/82k crawled SKUs for SG/MY, 60-70% were matched after excluding FACC
        ii. SKU List has been passed to local teams for review
        iii. Next steps to evaluate VN/TH/PH/TW TB fashion SKUs [ETA: 15 Jan]
2. Other markets
    a. **VN, TH and TW pitching completed**, to begin sellers self-listing migration and marketing push set up
    b. PH in progress of reviewing target sellers list [ETA: 10 Jan]
3. [Follow-up question from last monthly meeting] Breakdown seller performance tracking based on existing vs new SKUs
    a. **SG:** total ADO 534; 507 from existing SKUs, 27 from new SKUs. To work with markets to get sellers to utilise ads on new SKUs

4. [Follow-up question from last monthly meeting] **Double check TB fashion seller pool with Derek**
    a. Aligned with Derek's team that the total seller pool for fashion is 164 (with high confidence), of which we have pitched to all of these sellers to join our program

G/ [Special project] Counter TB - Furniture

1. Overall progress
    a. Compiled regional view of TB furniture universe
    b. Aligned target TB SKU pool for SG/MY (as subsets of the universe based on local requirement)
    c. On-going acquisition pitching by CN SMT team for SG/MY, to complete 1st round by end-Jan
    d. Next steps
        i. Finalize acquisition and marketing plan with CN SMT/MYBD/SGBD [ETA: 17 Jan]
        ii. Set acquisition and ADO target for SG/MY, start tracking [ETA: 24 Jan]
        iii. Start defining target TB SKU pool for other markets [ETA: 17 Jan]
2. [Follow-up question from last monthly meeting] **TB furniture universe / funnel building**

[Furniture universe] We have identified 165,926 top selling furniture SKUs on TB; 151,736 (91%) currently available on SHP platform with a total SHP ADO 51k

Approach in building the TB furniture universe view

- Definition
  - "TB furniture SKUs" = top-selling SKUs on TB
  - "TB furniture sellers" = sellers who sell the TB furniture SKUs on TB and/or SHP
- Consolidated and de-duplicated TB SKUs from 3 sources: 1) TB SKU crawling; 2) local market wishlist; 3) CN SMT top seller list
- The universe is likely to expand further with inputs from more local markets and crawling of TB top sellers

	# TB SKUs	% of total universe	ADO on SHP	Approach
1 SKU on SHP	151,736	91%	50,900	**Migrate SKUs to other local markets** by • incentivizing seller • via SIP
2 SKU NOT on SHP	14,190	9%	0	**Acquire SKUs to SHP** by • acquing sellers from TB • sourcing SKUs with existing SHP sellers
Total	165,926	100%	50,900

1 [SKU on SHP] 26k ADO uplift potential by migrating existing TB SKUs to all local markets

Table: Distribution of TB SKUs on SHP platform across local markets

Market	Existing		Migration opportunity		Total potential	
	# SKUs	ADO	# SKUs	ADO potential	# SKUs	ADO potential
SG	126,395	1,869	25,341	39	151,736	1,908
MY	37,049	5,153	114,687	1,675	151,736	6,828
TH	23,057	12,354	128,679	7,240	151,736	19,594
PH	26,762	13,251	124,974	6,497	151,736	19,748
VN	20,924	14,326	130,812	9,404	151,736	23,730
TW	40,793	3,946	110,943	1,127	151,736	5,073
Total	/	50,900	/	25,982	151,736	76,881

Highlights

- Key assumptions
  - 30% of SKUs not present in local market can be migrated
  - Newly migrated SKUs has SKU eff at 35% of existing SKUs available in the market
- Next steps
  - **Existing SKUs available in each market**: 1) align marketing push plan with local BD to push for growth; 2) improve price competitiveness of shipping rate card
  - **SKUs with migration opportunities**: 1) align target pool with local BD based on local requirements; 2) align acquisition plan and incentives with local BD and CN SMT; 3) set acquisition and ADO target and track performance

Private & Confidential 2

3. SKU/seller acquisition into SHP [SG/MY]
   a. Pitching pool: 61 sellers, 1000 SKUs for phase 1 as selected by SG/MY
   b. Progress: 4 sellers and 159 SKUs acquired, MTD ADO 43
   c. Remaining pitching in progress, target to complete first round of pitching by end-Jan
4. TB SKU crawling
   a. Completed SKU crawling and matching for TB SG/MY/TW sites, fed the data into TB furniture SKU universe

    b. Next steps to crawl TB top 500 furniture sellers and compare their SKUs with the current universe, to 1) identify additional TB SKUs we need to add to universe; 2) prioritize sellers to acquire by CN SMT team [ETA: 17 Jan]
5. [Follow-up question from last monthly meeting] **Check furniture SG sellers distribution between SLS vs 3PF**
    a. Based on the 26 furniture sellers that we are tracking for SG/MY, on SKU level, BI data shows that 13% of SKUs are on SLS model across SG and MY. 87% of SKUs are on 3PF model
    b. Derek's team in progress of checking this data with the 26 sellers one by one

H/ [Special Project] BR Export (BR-Latam, BR-SG)

1. **BR-LATAM: target launch timeline end Feb-25 set by Pine**
    a. Pending BR BPM assessment on timeline feasibility
    b. Scheduled in-person meet-up in Feb-25 during BR team's visit to CN, to close any knowledge gap on SIP
2. **BR-SG**: Pending Pine/BR COO decision if to launch BR-SG together with BR-LATAM

I/ [Special project] SGSIP Feb launch event

1. **SGSIP MTD performance** (SGMY+SGTH)**:** ADO 90 (RR 112%, MoM +1%), ADG $4.4k (RR 177%, MoM +8%), ABS $49 (RR 159%, MoM +6%); shop count 13.2k (RR 103%, MoM +4%)
2. **SIP x ESG launch event confirmed for 7 Feb 10am at 5SPD**
    a. PR team shared press release, briefing book and media FAQs for SIP review [ETA: 13 Jan]
    b. SE team reached out to 3 shortlisted sellers to share quotes for press release, 1 confirmed [ETA: 13 Jan]
    c. SIP team to prepare keynote presentation slides [ETA: 14 Jan]
3. **ESG x SHP partnership expansion**
    a. **ESG keen to expand partnership with Shopee, open to co-invest into either/both 1) more SGSIP lanes; 2) growth program for SGMY Direct selling**
    b. Next steps: Follow-up meeting with ESG on 17 Jan to discuss expansion options and co-investment asks

J/ [Special project] Direct selling assessment update

1. **IDMY**
    a. In progress of **planning IDMY direct selling pilots with 10-20 muslim fashion top sellers by late-Feb**, to catch Raya peak period in early Mar
    b. To align pilot plan with IDSIP/IDCB lead (Putri) and ID SMT and ID SPX support required for the launch on 13 Jan
    c. Support needed from SG/MY teams for pilot run
        i. MYBD: provide marketing resources to IDMY pilot shops
        ii. MYSG RM: train ID RMs on supporting sellers in direct selling, from shop setup to using marketing tools and joining campaigns
        iii. MYSG biz ops: open IDMY direct shop, migrate SKUs, price, reviews, sold counts
2. **SGMY**
    a. 9/10 top SGMY SIP sellers indicated interest in opening SGMY Direct shop
    b. Proposal for next-steps: to plan SGMY direct selling pilots with 5-10 sellers, to launch after IDMY pilot launch [pilot plan ETA: 17 Jan]
3. **MYPH**: MYSG SMT team in progress of collecting interests from top 20 managed MYSG direct sellers [ETA: 17 Jan]
4. Other ad-hoc conversations bridged by RBP team
    a. GUESS (rep by its distributor YSG) keen to explore SG direct selling to other SEA markets; not interested in SIP as the distributor would like to have full control in the region especially on pricing. Next step to confirm interest to join SG-MY Direct selling pilot after internal alignment

    b. City Music (shopee.sg/citymusic1968) keen to explore SG direct selling to other SEA markets; open to start with SGSIP first to test product fit till Direct selling option is available. Next step to confirm which SG shop it wants to use for SG-TH/SG-MY SIP sign-up

K/ [Reduce price] P-market BPSF reduction

1. **MYSIP**
    a. **MY local FP&A in progress of drafting new P BPSF rate card [ETA: 15 Jan]**
    b. MY local Logistics Ops will configure the new P BPSF rate card in system once available
2. **IDSIP**: Kicked off discussion with ID local FP&A; next step for ID local FP&A to assess feasibility / reduction potential [ETA: mid-Jan]
3. **VNSIP**: No actions required, as already charged fair P BPSF
4. **Other P-sites**: to kick-start discussion from Feb after settling top 5 lanes; target to complete all P BPSF revision by end Mar

L/ [Reduce price] P-market selling price reduction

1. **MYSIP: pitching by MYSG RM team kicked off; to complete to 300 sellers (~25% ado coverage) by end Jan**
2. **IDSIP/VNSIP**: in progress of potential assessment, target setting, and incentive plan design; to kick off pitching by end Jan
3. **Regional discount tool** for mass price reduction
    a. In progress of seeking legal clearance on opt-out model
    b. Latest product go-live ETA: end Feb-25

M/ [Reduce price] ASF reduction

1. Context: SIP SLS successfully achieved line-haul cost reduction for H1-25; **SLS plans to pass the saving to SIP by reducing ASF based on 95% SLS P&L setup**, to help SIP improve price competitiveness
2. Next step:
    a. Finalize the new rate table and seek management approval [ETA: 27 Jan]
    b. Publish new ASF [ETA: 31 Jan]

N/ [Optimize marketing] Ads optimization pilot

1. Pilot started on 23 Dec with 300 new SKUs and 300 top old SKUs on 2 lanes (IDMY and VNMY) from 3 top categories (WC/MC/BKF)
2. Old SKUs pilot
    a. Status: stage 1 x 10 days completed (2 more stages to go)
    b. **Interim performance: ADO +6%, ads ROI +2.0 (from 3.4 to 5.4), ads spend -26%, ads PC2 +$218 USD daily**
    c. Next steps: 1) conclude pilot by 3 Feb; 2) raise product request for an ads automation tool for old SKUs [dev ETA: pending]
3. New SKUs pilot
    a. Progress: 3 stages completed (15 days in total)
    b. **Performance: ADO 59, ads ROI 4.5 (on par with lane average), 25% SKUs graduated with acceptable ads ROI and ads PC2**
    c. Next steps
        i. Analyze the SKU profiles of the 25% good SKUs, to understand what types of new SKUs should be prioritized for ads boosting [ETA: 14 Jan]
        ii. Complete live testing of ads automation tool for new SKUs [ETA: 14 Jan]
        iii. Scale up new SKUs ads optimization with automation tool [ETA: end-Jan]

O/ [Optimize marketing] CNY order forecast and marketing drive

1. Context: During CNY period, some sellers will go on vacation mode or turn on pre-order which will impact ADO performance. CNSIP SMT surveyed sellers' holiday plan (~18k SIP shops with ~20% CNSIP ADO coverage), to inform marketing focus
2. Findings

    a. 56% sellers(10k, 12% ADO coverage) will operate shop per normal
    b. 36% sellers(6k, 7% ADO coverage) will switch on pre-order, leading to longer lead time to buyers
    c. 8% sellers(1.5k, 0.6% ADO coverage) will put on vacation mode
3. Expected impact: CNY ADO will be impacted from 18 Jan to 25 Feb; peaking at 13% ADO reduction around 29 Jan
4. Next Step (marketing plan based on the learnings)
    a. During CNY period: reallocate more budget for non-holidy mode shops
    b. Post CNY period: Push via additional $5 ads budget for top sellers coming back from HM, to help drive inorganic traffic to recover ADO

P/ [Reduce BWT] JB TWS 1-AWB launch and relocation

1. 1.1 campaign actual ADO ~46k, 9k higher than projected. No TWS backlogs, BWT maintained at 3.5 days
2. **1-AWB roll-out: Finished final batch of shop whitelisting on 9 Jan.** Next step to add an IB wave from JB RC to further reduce APT
3. **TWS relocation**: lease/tenancy agreement confirmed [moving in ETA: end Feb-25]

Q/ [Reduce BWT] HCM TWS launch

1. Context: to reopen HCM TWS for a dual TWS setup for VNSIP (HAN+HCM), to diversify export volumes across three gateways: HAN, DAD, and HCM
2. Status: **HCM TWS launch completed, HCM export resumed on 6 Jan.** Minor system hiccups for the first a few days of transition leading to temporary backlogs. Ops has stabilised since 10 Jan.

R/ [Optimize ops] LVMH complaint issue handling

1. Context: LVMH raised a complaint about counterfeit products in SG shops, including 48 SIP shops (ADO 12; ADG $123); its lawyer sent court paper messages to these shops via Shopee chat
2. Current status
    a. Per HQ legal guidance, Shopee/SIP's role is to relay LMVH lawyer's message to the actual seller in P-site
    b. SIP team has forwarded the exact message received for each of the 48 shops to its P-site seller following comms SOP
    c. 48 SIP shops on SG are kept active per legal guidance, to ensure any comms from LVMH can be received

a. Next step: SIP to monitor any response from P-site seller, and feedback to legal for next step

S/ [Optimize ops] In-house CS system migration

1. Context: Regional propose to migrate all internal shop agents from seller center webchat to in-house CS platform, to 1) enhance/standardize performance management of internal shop agents, 2) improve ops efficiency, 3) improve advanced CS feature to buyers
2. Current status: UAT signed off on 10 Jan; to start live testing from next week
3. Next step: to finalize rollout plan together with local/regional CS [ETA 17 Jan]

T/ [Healthy P&L] P+SA combining reporting

1. Email approval obtained from Ian on 9 Jan
2. Next steps: 1) obtain email approval from TP [ETA 15 Jan]; 2) (after approval) work with local FP&A teams to formalize the booking [ETA completion: before Mar budget submission cycle]
