Counter Taobao Weekly Update

Week ending 27 June 2025

Questions from Ian from last week’s update

[Question 1] Can we look at price competitiveness of Taobao SKUs? Why are we so bad? And how do we intend to improve?

Highlights:

1. **Price Comp Monitoring -** We will start tracking the price comp of all the matched TB SKU (~108K SKU as of Jun'25) across the 4 focus categories. Will work with CBBI to have a daily/weekly/monthly view to monitor progress. **ETA: 6th July**

2. **Existing Net Price Comp -** We are working with CN SMT to understand key reasons why these Top TB sellers are not setting competitive prices on SHP **(ETA: 6 July)**
   We want to ensure:
   a. **Pro-Active Price Adjustment** - Seller who are not routinely reviewing their price on Shopee should start doing so and not have drastic price differences at listing level.
   b. **Seller Incentives** - For Top Sellers or Sellers who have difficulties setting competitive pricing, they can be supported with right incentive. (i.e. upsize Item rebate from 2% to 8% during campaigns) In return, seller have to ensure key SKUs that we singled out are price competitive vs their TB Shop

#	Topic	Action	PIC	Next Step	Effort	DDL
1	**Price Comp Monitoring**	Set-up daily/weekly/monthly price monitoring for Match TB SKU	CBBI	**1. Automate Price Crawl** - Improve existing manual script to generate daily/weekly/monthly net price comp view at Item Level (Identify SKU we are Cheaper, On Par, Expensive)	**Medium**	6 Jul
2	**Improve Price Comp**	Identify top sellers and SKUs that we want to improve price comp	Reg PMO + Lever Owners	**1. [Short Term - July]** ● Shop Level: To start fast with smaller group of sellers (Top 20) of each focus category starting from SG/MY to set competitive pricing vs their TB shop **2. [Long Term - Aug onwards]** ● Shop Level: To expand >20 shops and set price comp target at shop level	**Low**	6 Jul Aug Onwards
3		Monitor price daily and get sellers to adjust price to be competitive	CN SMT/ CN RMs	**1. Net Price Comp** - Ensure target seller and SKU list is delivered to RM to communicate to seller for price adjustment.	**High**	11 Jul
4	**Seller Incentive**	Upsize Item rebate for seller to set competitive pricing on SHP	Local CB	1. **Upsize Item rebate** from 2% to 8% during campaigns. In return, seller have to ensure key SKUs that we singled out are price competitive vs their TB Shop (To align with all markets for all focus cat)	**Low**	11 Jul

[Question 2] How many sellers have we onboarded so far for Direct? How is their performance? How are we supercharging their sales so we can use it and get more direct sellers on board?

Highlights:

1. **We have onboarded 300 sellers for Direct, contributing 41.4k ADO:** In H1, we grew 14.7k ADO (H1 +55%) and +319k (H1 +55%) new to SHP SKUs (benchmarking same seller + SKU pool)
2. **To supercharge their sales,** we have aligned on comms waiver for acquisition, and other incentive packages with ads/vouchers/rebates/CFS. We'll also pick out a small group of key sellers and align with markets to push (ETA: Jul) so that this can be used as success cases for more acquisition

[Question 3] And for sellers from ERP, are they growing? Need to grow faster?

Highlights:

1. **ERP is still in trial phase currently:** Due to UX issues faced by sellers, alignment with JH is to fix the P0 issues asap
2. **In this trial, we have 42 sellers signed up, with 5 sellers that already listed and started sales**: 5 sellers currently listed 19k SKUs with 22 ADO
3. Next steps
    a. [Short-term] Get 10 more JST sellers to start listing next week. WDT to start on 3 sellers next week.
    b. [Mid-term] Fix UX issues, automate system and start mass pitching (ETA start mass pitching: Aug) -> This is the point when mass pitching will bring the bulky of the uplift

[Question 3] And for sellers from ERP, are they growing? Need to grow faster?

System update

- JST live test done, further improvement undergoing. Will update in following page.
- WDT live test done, one seller has completed onboarding and listing. To align system fixes with them this week on issues in following page.

TOS

- Legal team is still drafting TOS, target to draft by June 27

Payout

- **Short term**: new adjustment SOP aligned with payment ops, target to complete adjustment upload for current two sellers by July 3, and complete payout to seller in week July 8.
- **Long term**: further discussing plan details with Tenpay, target to complete system design by July 2 and live by end of July.

Rollout progress

Metric	Volume	CR%	Notes
Seller sign-up survey	42	-	Collected via survey, marketing event
Sellers approved	35	83.3%	Sellers who submitted correct BLN copy and ERP screenshot (excld non JST sellers)
Sellers fully onboarded	30	85.7%	Merchant/Shop created, shop setting completed
Sellers who completed item listing	5	17.2%	At least 1 base item successfully listed. Need to push sellers to complete
Sellers who had orders placed	2	40.0%	At least 1 order placed

For JST, Key Challenges from 1st Pilot, Expanding to 8 More Sellers

1. Key Challenges Identified from First Pilot (2 Sellers)

Stage	No.	Key Challenges	Description	P	Category	Owner	ETA	Next Step (update on 6/26)
Seller Onboarding	1	High manual efforts to authorize shop on ERP	Authorization flow requires sellers to manually bind 10 stores in JST using token obtained via RM	P0	Technical Business	SHP JST	mid July	JST will optimize their shop authorization function, target to offer solution by July 3.
	2	Seller login failure on ERP	JST provides free functions, but requires manual acc permission config, and the config process often goes wrong, leading to repeated back-and-forth communication with sellers.	P0	Technical	JST	mid July	JST will internally check account access setting, target to have a conclusion by July 3.
	3	Potential ERP account fee charge	For sellers beyond the first 30, JST may charge for system usage. This could cause sellers to drop out due to unexpected cost.	P1	Business	JST	mid July	- JST promise to offer 1 year free trail for swarm shop - For future pricing plan, JST will internally discuss
Item Listing	4	Price from ERP is uncompetitive	Price pulled from Taobao is 一口价, higher than real TB selling price	P1	Technical Business	SHP JST	mid July	JST plan to add mass discount function, allow seller to set one discount for all products then publish to Shopee. Target to offer solution by July 3.
	5	Seller is unable to view/edit settlement price	ERP does not display seller settlement price for listed SKUs	P0	Technical	SHP JST	mid July	JST will integrate with CBT and display settlement price on their FE. CBT API will be ready by July 4.
	6	Seller is unable to update stock	JST does not support sellers to update stock	P0	Technical	JST	mid July	JST will further check stock update failure issue, target to have conclusion by July 4.
Fulfillment	7	Unclear ERP order fulfillment guidance	Some sellers are unfamiliar with how to fulfill cross-border orders via JST.	P0	Technical	JST	TBD	- 专业版: JST provides online training - 企业版: JST has profissional dev provide one-on-one service on site
	8	Low ERP order fulfillment usage	Some sellers do not use JST for order fulfillment, which adds complexity to the shipping process.	P0	Business	JST	mid July	From JST: around 90% JST users are using JST to fulfill orders. JST will internally discuss order fulfillment feature improvement.

2. Next Step: Continue rollout while fixing

- *Validate fixes in a broader seller group and identify additional edge cases*
- *Accelerate overall readiness for full rollout*

3. Help needed: support from JST to standby to solve access issue

For WDT, Key Challenges from 1st Pilot, Expanding to 3 More Sellers

1. Key Challenges Identified from First Pilot (1 Seller)

Stage	No.	Key Challenges	Description	Priority	Category	Owner	ETA	Next Step (update on 6/26)
Seller Onboarding	1	High manual efforts to authorize shop on ERP	No operation needed from seller, WDT will manually create new cross-board accounts for sellers and authorize shops. Not scalable	P1	Technical Business	SHP WDT	mid July	Need WDT to optimize authorize flow by getting token via API
	2	Seller login failure on ERP	Complicated account structure - Cross border platform: WDT will manually open a 跨境账号 for seller, RM needs to offline provide account and password to seller - Listing platform: a new platform for seller, need to use 内贸账号	P0	Technical Business	WDT	mid July	Need WDT's collaboration to optimize their account structure. Establish account linkage to achieve login-free between different systems
	3	Potential ERP account fee charge	WDT internally discussing future fee plan	P1	Business	SHP WDT	Early July	MKT team is negotiating with WDT to have a clear pricing plan
Item Listing	4	Price from ERP is uncompetitive	Price pulled from PDD is '拼单价', lower than TB selling price but higher than PDD selling price (after platform discount,etc)	--	-	-	-	/
	5	Seller is unable to view/edit settlement price	ERP does not display seller settlement price for listed SKUs	P0	Technical	SHP WDT	mid July	CBT can provide API, pending to discuss with WDT about the integration plan
	6	Seller is unable to update stock	WDT does not support sellers to update stock	P0	Technical	WDT	mid July	Pending WDT to check update failure issues
Fulfillment	7	Unclear ERP order fulfillment guidance	Pending live order to collect feedback from sellers	P1	Technical	WDT	TBD	Current seller is using WDT to fulfill orders. Will create more feedback from sellers.
	8	Low ERP order fulfillment usage	Pending to collect more feedback from sellers	P1	Business	WDT	TBD	

2. Next step: push the remaining 3 WDT sellers complete listing publish, and collect more feedback from sellers

Highlights

1. Reg MTD ADO 3.2k (+11.5% MoM), driven by TH push
   - TH ADO 1.1k (+28% MoM) due to increased seller investment and platform push as program started and is ramping up
   - MY update vs last week: Impact from 2 reasons updated last week (sellers moving to CNLS, and penalty points preventing sellers from participating in campaign) still observed. To start ramping up after seller penalty points reset in July

2. Reg MTD ADG $153k (+5.6% MoM), mainly driven by strong ADO growth. Reg ABS fall at -5.3%, driven by promotions with main drops in
   - VN (-11.6%): Free shipping promo ran with no min. spend
   - TH (-10.2%): Stronger seller promotions during 6.6

3. SKU # 277k (+15% MoM); mainly driven by MY SKU# +31% MoM from 润泽优 relisting SKUs (from system bug)

[Furniture] Overview of initiatives: 2 furniture sellers onboarded for ERP, to push them to start listings next week. For CNLS, managed to convince 中南 to join in SG

Domain	#	Initiative	Market	Status
Grow SKU count	1	**Cross-market SKU migration**	SG/MY/TH	• 199k SKUs added to SG/MY/TH since the start of the program; MTD 708 ADO from new SKUs (22% of program ADO)
	2	**TB seller acquisition (manual pitching)**	SG/MY	• Top 500 TB Furniture sellers: 13 sellers acquired in total (11 already in program, 2 to be reviewed by mkts) • Non-top TB 500: 17 sellers acquired in total (4 already in program, 13 to be reviewed by mkts)
	3	**TB seller acquisition (ERP)**	SG/MY/TH/VN	• 2 furniture sellers onboarded, of which none have listings; to start pushing them to list next week
	4	**TB seller self-nomination**	All	• TB sellers: 6 out of 17 sellers identified accepted to join program via migration/sourcing, pending mkts to review [ETA: 2 Jul] • Non-TB sellers: 2 sellers identified with potential to be pitched to join program [ETA: 2 July]
	5	**SKU Sourcing**	SG/MY	• SG: Completed 6k sourcing SKU # target in Apr [Completed] • MY: 润泽优 (one of top GGPs) completed sourcing of 12.3k SKUs in Jun, achieving overall target of 23k [Completed]
	6	**CNLS**	VN/MY/SG	• VN: Target seller list aligned, total 133 sellers with 89% CNLS Furniture ADO coverage • MY: Pitching completed with 51 sellers accepting to join program, incentives to begin 1 Jul • SG: Top GGPs - 中南 accepted to join program with 10 shops by Sep, total 350 skus by end Aug. 舰长 still pending confirmation on 5 shops [ETA: 2 Jul] Remaining GGPs - 11 shops (from 3 GGPs) accepted to join program, incentive to start from Aug
Improve Logistics	7	**Set-up installation**	SG	• STO installation was planned for local only and to replicate local channel design to CB and launch Best installation • Out of 67 shops whitelisted, 12 shops (from 4 GGPs) are from TB program, feature launched with greyscale started 20 Jun, open to 100% by 9 Jul
	8	**拆包 request**	SG/MY	• Issue: sellers need to split their bulky item parcels, e.g., one sofa split into 3-4 parcels; workaround solution facing ops issue causing seller penalty points • System solution: approved as P1, pipeline sequence confirmed, next steps for FPM to start on PRD [ETA: pending]
	9	**Set-up bulky channel**	TH/PH/TW	• TH: Channel officially went live on 10 June, currently 240 sellers whitelisted onto channel • TW: Channel deployed to live, currently broadcasting to sellers on channel launch to gather sellers for whitelisting [ETA: 4 Jul] • PH: To de-prioritize due to competitive shipping channel with TB (after TB removal of sea shipping channel)

**SKU# is not unique e.g a seller can upload the same SKU to SG and MY. We'll do a unique SKU match in early-Jul*

Highlights

- SG/MY/TH: June final match results (as of 17 Jun seller nomination): 79 (SG), 37 (MY), 1 (TH)
- All markets missing target for Jun
  - Possible reasons (1) listing language differences affects ability to match (2) Image matching to TB wishlist is limited by BI's requirement for exact matches
  - Next steps: Moving forward, sellers will be responsible for indicating match to TB wishlist before market's manual review instead of BI match (due to match limitations)

**SKU# is not unique e.g a seller can upload the same SKU to SG and MY. We'll do a unique SKU match in early-Jul*

Highlights

- SG/MY/TH/VN: June final match results (as of 17 Jun seller nomination): 24 (SG), 69 (MY), 6 (TH), 5 (VN)
- SG and MY overachieving SKU# targets of 25 and 28 SKUs respectively
- TH and VN falling behind SKU# target of 11 and 24 respectively
  - Possible reasons (1) listing language differences affects ability to match (2) Image matching to TB wishlist is limited by BI's requirement for exact matches
  - Next steps: Moving forward, sellers will be responsible for indicating match to TB wishlist before market's manual review instead of BI match (due to match limitations)
