**Universe defined as identified TB sellers that are operating on SHP & SHP SKUs that are matched to TB top listings*
**Program defined as proportion of universe sellers & SKUs that are given incentive package to support growth*

Highlights

1.ADO/ADG Target Overachieve - ADO 40K (106% RR), ADG 433K (104% RR) driven by growth in

- New Seller Acquisition in TH (ADO RR 119%) driven by Women's apparels seller (MOSESQUEEN) with competitively priced assortment, reaching 825 ADO in 3rd month of onboarding & VN (ADO RR 133%) driven by Women Bags brand seller Caidre MoM +139% to 107.

- Existing Seller Growth mainly in PH (ADO RR 117%) due to push of sports and outdoors apparels, and platform investment. Item rebate MoM + 127%, voucher rebate MoM +68%, PC2 -5%.

2.SKU Target Below RR - SKU# at 696k (RR at 22%) due to delay in SKU onboarding via Lever 3 as system trial is ongoing and existing manual onboarding process (i.e. shop creation and SKU listing) needs to be improved prior mass pitching in July.

3.Program PC2 -1.90% driven by re-investment in program sellers from MY(-2%) TH (-2%) and PH (-5%)

Highlights

- **Overall, most markets achieved targets. However,**
- **SG:** Lever 2 RR underachieve due to drop in SKU efficiency despite SKU# meeting targets, MoM ADO -13%. Decline in traffic is despite healthy ads take rate at 8.8%.
  - Catch up plan: Additional collection in Fashion microsite through till Aug and more item rebate/SSV
- **MY/TW:** Lever 1 RR underachieve despite SKU# meeting targets. Next step: to discuss with Local CB team on exposure plans for newly acquired sellers.

Highlights

1.ADO/ADG Target Overachieve - ADO 1.9K (103% RR), ADG $84K (99% RR) driven by TH. In particular, top seller 中南万象 was boosted by June platform voucher for high ABS items.

2.SKU Target Below RR - SKU# at 271k (RR at 93%) due to delay in SKU onboarding via Lever 3 as system trial is ongoing and existing manual onboarding process (i.e. shop creation and SKU listing) needs to be improved prior mass pitching in July.

3.Program PC2: 10.31% due to increase in take-rate in SG/MY following commission fee changes. WIP to discuss reinvestment plans.

Highlights

- **MY:** Lever 2 RR is slightly off-track due to 1) penalty points preventing sellers from participating in campaigns. WIP with CN RM to resolve penalty points.

Program Levers Updates

Lever 1 - New Seller Acquisition: By Jun'25, 144 TB sellers have opened shops on SHP, 94 have joined program; will continue to repitch rejected sellers through ERP solutions

Status (YTD)	Metrics	Fashion	Furniture	F&B	Beauty	Total
(1) Sellers accepted to join SHP	Seller#	95	44	5	24	168
(2) Shops opened	Seller#	95	42	3	4	144
(3) Join program	Seller#	78	16	0	0	94*
	SKU#	29,231	1,906	/	/	31,137
	ADO	1,465	21	/	/	1,486
	ADG	14,435	1,861	/	/	16,296

**Note: Gap between shops opened (144) and join program (94): F&B and Beauty - 7 to nominate in July batchunder local review, Fashion - 17 has been rejected by local (e.g., seller SKU assortment is not in core fashion categories), Furniture - 8 switched to LT/ERP/ReICB/ID local shop, 18 pending local review in July.*

Key Highlights:

1. **Acquisition Overall:** A total of **144 Taobao sellers have opened shops with 94 sellers on Taobao incentive program**
2. **Fashion:** (a) 95 Taobao sellers acquired, of which 78 have joined program, with 1.5k ADO and 29.2k SKUs.
3. **Furniture**: (a) 44 Taobao sellers accepted to join SHP, of which 16 joined program, with 21 ADO and 1.9k SKUs. (b) CN will push new sellers to complete 100 SKUs upload criteria, and continue to follow up local review process for newly nominated sellers
4. **F&B**: (a) 5 Taobao sellers accepted to join SHP, of which 3 have opened shops. (b) To nominate 3 new sellers to join program in July, will continue to follow up local review progress. (c) Continue to push sellers to open shops across sites.
5. **Beauty**: (a) 24 Taobao sellers accepted to join SHP, of which 4 have opened shops. (b) To nominate 4 new sellers to join program in July, will continue to follow up local review progress. (c) Continue to push sellers to open shops across sites.

For sellers that rejected to join SHP, will **repitch through ERP solution**

Lever 2 - SKU Sourcing By Traders: By Jun'25, all 4 categories have started TB wishlist SKU sourcing, with 32k SKUs sourced so far, RR 91%

		Fashion	Furniture	F&B	Beauty	Total
YTD Performance (Jan'25 - Jun'25)	YTD wishlist SKU # target	4,350	29,000	1,208	98	34,656
	YTD wishlist SKU # performance	1,031	30,432	80	99	31,642
	YTD wishlist SKU # RR	24%	105%	7%	101%	91%
Deepdive on Performance	**YTD wishlist SKU #**	**1,031**	**30,432**	**80**	**99**	**31,642**
	... Jan-May SKU #	-	30,432	-	-	30,432
	... June SKU #	1,031	-	80	99	1,210
	.....Seller upload SKU #	2,841	-	855	4,520	8,216
	.....Wishlist match rate %	*36%*	-	*9%*	*2%*	-

**Note: F&B / Beauty wishlist sourcing targets to update in July based on latest incentive level and YTD actual seller sourcing progress*

Key Highlights:

1. **Taobao wishlist sourcing overall:** By June, all 4 focus categories have started TB wishlist SKU sourcing. YTD 31,642 new TB wishlist SKUs have been sourced, YTD RR 91%.
2. RR gap is mainly due to **limited seller upload SKU #** and **low match rate:**
   a. **Limited seller upload SKU #**: mainly for Fashion SG/MY (June uploaded SKUs SG 275, MY 303) >> due to **low seller willingness** as incentives is not attractive enough. **In discussion with local CB to upsize SKU sourcing incentive** (from 2% item rebate to 8%)
   b. **Low match rate**: (1) match rate for F&B and Beauty is lower than 10%, mainly due to BI exact image match >> **local review will change to manually eyeballing since Jul**, (2) match rate for Fashion is 36%, while SG is only 7% >> **will further unify review criteria across sites and improve match %**
3. For Furniture, **first round of sourcing has been completed with 30.4k total wishlist SKUs.** In discussion on 1) whether to expand SG/MY wishlist SKU pool (and potentially add smaller furniture items, e.g. chairs/desk) and initiate second round sourcing; 2) whether to build wishlist and initiate sourcing for TH as well (pending incentive package)

Lever 3 - SKU Sourcing by ERP: We are currently still in trial phase with 44 sellers expressing interest with 10 completing listing (WoW + 5 sellers); Jul's focus will be to fix all P0 issues

Lever 3 - SKU Sourcing by ERP: Seller Funnel

	Total	Fashion	Furniture	F&B	Beauty	Others
# of sellers that expressed interest	44	19	2	15	0	8
# of sellers that have opened shop	34	15	2	13	0	4
# of sellers that RMs have reached out to	33	15	2	12	0	4
# of sellers that have listed items	1 10	6	1	1	0	2
... # total SKUs listed by sellers	Pending data. Current tracking is only for program SKUs + ADO					
... # program SKUs listed	1 26,185	25,822	0	363	0	/
... Jun ADO	25	25	0	0	0	/

Key Highlights

1. Currently, we are still in a **trial phase with small-scale testing**, with seller UX issues to be fixed, and onboarding process to be automated before we can ramp up (more details in next slide)
2. 44 sellers have signed up, of which, 10 sellers have completed listing with 26k items
   a. We'll focus on marketing efforts on these SKUs for Jul, and build an SOP to increase price competitiveness for these SKUs

Key challenge faced in onboarding sellers: 聚水潭 will not support system mass pitching thus reducing # of reachable sellers; WDT has 19 mil wholesale SKUs and want to work with us to onboard

Onboarding Plan in Jul, and Aug onwards…

	聚水潭	旺店通
What are we currently doing in Jul?	Running a **trial** on 44 sellers, but will not scale up actively due to issues faced (below)	
What are the issues we face?	1. Sellers face **poor UX** during onboarding e.g. authorisation issues, login issues, etc 2. Onboarding process is **very manual**, requires a lot of human intervention	
How do we plan to fix it?	1. Fix all P0 seller UX issues by end-Jul 2. Automate majority of onboarding process by end-Jul, leaving the remaining to BPOs	
How did we plan to ramp up in Aug?	Originally, we wanted to show a **banner** on ERP's platform and get sellers to onboard at scale	
ERP's agreeableness to our plan	Did not agree (because they do not want TB to find out. They want SHP to front the pitching)	Likely to agree
What is the new proposal?	Give us a list of sellers they work with, and get SHP team to pitch	- Willing to show banner (TBC by CN MKT), and pitch us via live-streams - Also, they have **19 million wholesale SKUs**. To work with them to onboard as the first batch
How does this impact us?	Scale of sellers we can directly reach out through JST is **drastically reduced.** Need to figure out how to mass pitch ourselves	No impact to original projections

Price Comp Updates

SHP VS TBG Price Comp - To pilot price adjustment in SG/MY post 7.7 targeting top 1000 SKUs across 4 focus categories. Longer term to look into automating price matching effort in order to make it more scalable

Highlights:

1. **Short Term Plan (Next 2 Weeks)**
   a. **Identify Top 1000 TB** Match SKU on SHP across Fashion, Furniture, F&B & Beauty.
   b. **Reach out to sellers to do price matching** on their TB store in exchange for CFS exposure. **(To pilot in SG/MY as incentive is secured post 7.7)**
   c. **Standardize net price comp definition** to make clear to the seller the target price to set while considering the structural pricing limitation.

2. **Long Term (ETA: TBD)**
   a. **Automate Price Matching Script -** To explore automation with products team for price scraping on TB and reduce manual effort
   b. **Expand SKU Pool -** To monitor price comp beyond the 1000 Top SKU

Detail Timeline and Action Plan

#	Phase	Topic	Next Step	PIC	Effort	DDL
1	**Short Term Plan**	**Improve Price Comp**	**Identified Top 1000 TB** Match SKU on SHP across Fashion, Furniture, F&B & Beauty share to CN RMs.	Reg PMO + Lever Owners	**Low**	7 Jul
2			**Reach out to sellers to do price matching** on their TB store in exchange for BAU CFS exposure. (To pilot in SG/MY post 7.7).	CN SMT/ CN RMs	**Low**	7 Jul
3			**Standardize Net Price Comp Definition** to make clear to the seller the target price to set while considering the structural pricing limitation. For selected SKU, if price match cannot be done, propose for SHP to subsidize seller price with a Cap Spending in order to stay competitive.	Reg PMO + Local CB PIC	**Medium**	11 Jul
4	**Long Term**	**Automate and Streamline Price Matching Effort**	Current price matching work requires us to check each listing on TB manually which resulted in limited scalability on the SKU# to monitor price comp. To explore automation with products team for price scraping on TB.	Reg PMO + Reg BPM	**High**	TBD
5		**Expand SKU Pool**	To monitor price comp beyond the 1000 Top SKU, ideally to extend to all matched SKU on our platform currently estimated at 108K across 4 focus categories.	Reg PMO + Lever Owners	**High**	TBC
