CNCB/KRCB Platform Initiative Participation Process Benchmarking

Executive Summary

- While KRCB **participates in most platform initiatives** (Campaign push, Content Push, Price Comp/Bidding) today, initiatives without RM KPI such as Campaign Push and Price Comp/Bidding are **not robustly tracked and pushed**
    - KRCB KPI is focused today on **1) Topline, 2) Content (Video + LS), 3) Marketing Investments, 4) FBS growth, 5) New seller/markets**
- Next steps:
    - KR Team to review need to implement **Campaign participation** and **Price Comp/Bidding components** into RM KPI

Campaign and Platform Initiative Participation Process - KRCB RM participate in most key platform initiatives, however, do not install relevant targets to track success rate; Initiatives are pushed at best effort basis

Activity	RM KPI to support	CNCB Practice (For Ref)	KRCB Practice					
			SG	MY	TH	VN	PH	TW
Campaign Management (MY/SG only)	LTD/DDV	Robust process exists to submit SKUs and vouchers to local team, with target set to RM level with clear targets and feedback loop	Process exists to submit SKU & vouchers to local team but on best effort basis, no RM level tracking **Not part of RM KPI**		Both KR and CN RMs do not track campaign participation for other markets, done on best effort basis. Sellers nominate for participation through CMT themselves.			
	DD/SSV							
Price Management	Price Bidding	Robust process exists for RMs to push sellers to nominate lower prices. There exists target RR and escalation channels to push for RR attainment	Process exists for RMs to participate do price bidding and price comp, but also based on best effort basis, there is no communication channel to push for RR achievement and RR is not tracked **Not part of RM KPI**					
	Price Comp							
LFF	SBS New SKU	Robust process exists for RMs to push sellers to nominate new SKUs	Robust process exists for both LFF and Content pushes to set target to RM level and tracking of RR, similar to CNCB *(For Content, Reg PMO helped to streamline process in Feb 2025; target setting alignment is now initiated by CN Marketing team and to be aligned with both CN, Choice and KR teams, before submission to Reg BI)*					
Content	LS ADG	Robust process exists for RMs to push sellers to push Video/LS coverage						
	VD ADG							

Robust process =
1) Pre-campaign/initiatives sync up with Local Teams,
2) RM level target setting,
3) Tracker and data infrastructure set to monitor RR,
4) Communication channels for SMT to push RMs to hit targets

Robust process, Similar to CN RM

Process Exist, Can be Improved

Not enforced

Key Highlights

1. Campaign Management: Campaign Metric such as DD/SSV and LTD/DDV is included in CN RM KPI today but not in KR RM KPI.

- **KR RM and Campaign Manager team will support MY/SG at best effort today** for SKU and voucher submission aided by Local CB RM

2. Price Management: KR RM does not have RM KPI for price bidding and price comp. **RM is also supporting at best effort.**

Next Steps:

- KR Team to review need for installing Price Management and Campaign Management KPI
- Establish Target and Track RR Pre-Campaign
- Establish Internal escalation channel to push RM to work with seller to reach target

[Backup] Campaign Performance in July - KR CB is slightly behind CN for campaign contribution but ahead of CN for Shop voucher creation

Campaign Contribution*	7/7/2025		15/7/2025		25/7/2025	
Country	CNCB	KRCB	CNCB	KRCB	CNCB	KRCB
SG	30.6%	23.0%	28.2%	22.5%	28.8%	24.4%
MY	32.8%	27.0%	29.6%	24.6%	29.4%	22.4%
TH	24.2%	14.9%	19.0%	7.9%	17.7%	19.5%
VN	17.8%	19.4%	18.1%	12.3%	15.0%	17.1%
PH	26.5%	41.6%	29.9%	40.8%	14.3%	10.4%
TW	0.3%	0.8%	0.2%	2.1%	0.5%	1.4%
Grand Total 1	24.7%	20.3%	24.2%	18.8%	18.5%	16.2%

Contribution Logic: Campaign item GMV of CN or KR/ Total GMV of CN or KR
Campaign contribution refers to product promotions that are nominated by Shopee through the admin portal or CMT.

Grand Total	48.5%	61.3%	56.4%	73.4%	51.2%	71.1%	50.6%	70.1%

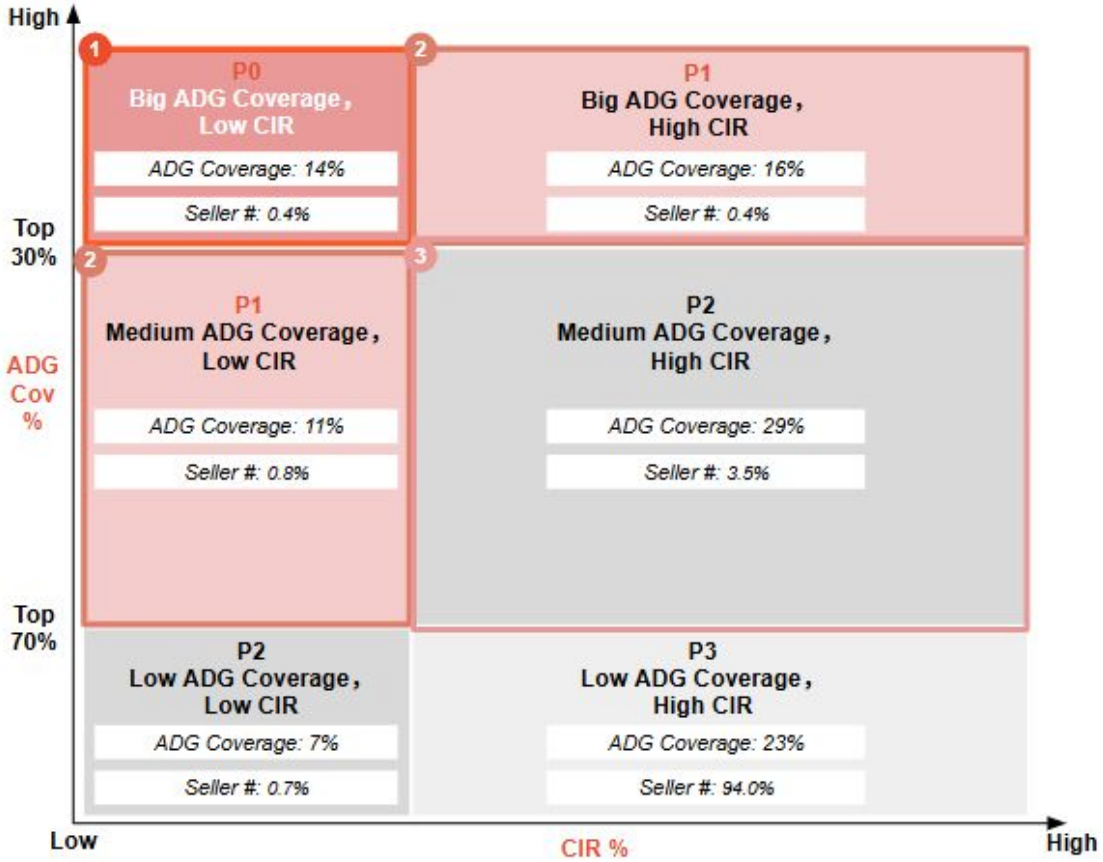
All Data From Jul 1-29

Key Highlights

1.Campaign Contribution: Overall, KR is slightly behind CN for campaign contribution GMV.

2. Shop Voucher: KR is better than CN overall during BAU and across campaigns.

[Backup] Robust Process (ref CN) - DDV Executional Strategy: Developed DDV pitching strategy to help Merchandisers/ RMs better achieve target by prioritization based on impact and feasibility



Key Highlights

SMT is setting pitching priority to help RMs/MDs have better views on which sellers are low-hanging fruits

- **Priority-setting methodology: we utilize impact and feasibility as essential dimensions to prioritize sellers**
  - Impact - ADG Coverage: the greater seller ADG is, the more impact to achieve
  - Feasibility - CIR: the lower the CIR from the voucher investment (voucher value / seller GMV), the easier for RMs to motivate sellers to invest in the voucher (different sellers are required to submit different seller voucher values based on their past submission behavior)

- **Based on above methodology, we categorize sellers into *P0/P1/P2/P3*; Take most recent round as example:**
  1. **P0: 0.4% of sellers contribute to 14% of ADG**
  2. **P1: 1.2% of sellers contribute to 27% of ADG**
  3. **P2: 4.2% of sellers contribute to 36% of ADG**
  - **P3: 94% of sellers cover 23%**

[Backup] Robust Process (ref CN) - Target is set to RM level

[MY - CNLS LTD]
Hi team,

MY CNLS Round 8.1 LTD进度提醒，目前auto-tag已全部完成，剩余部分需进行自主提报，请MD们尽早提报，避免出现提报错误而无法重新提报的情况，各team进度如截图

LTD： 目标：65.1%，当前：19.7%，RR：30.3%
各team需重点关注GGP如下（data as of Mon July 28 2025, 11 AM）：
UST_East: 中南万象（厦门）贸易有限公司 - GGP
UST_South: 深圳市千寻实业有限公司 - GGP 武汉寰球云联网络科技有限公司 - GGP
ST_Electronics: 创发国际贸易有限公司 - GGP
ST_Fashion: 江西乐晟箱包皮具有限公司 - GGP
ST_FMCG: COSMAR COSMETIC INTERNATIONAL LIMITED - GGP
ST_Lifestyle: 福建咚米网络科技有限公司 - GGP
Mass_MT: Little smart enterprise - GGP
