**Universe defined as identified TB sellers that are operating on SHP & SHP SKUs that are matched to TB top listings*
**Program defined as proportion of universe sellers & SKUs that are given incentive package to support growth*

Highlights

1.ADO/ADG Target Underachieve: ADO 41K (97% RR), ADG $423K (90% RR) due to Lever 2 underperformance in PH. MoM decline was sharper than expected due to over-investment in sellers in June to counter TTS

- Lever 1 Overachieve due to newly onboarded sellers Mosequeen MoM +57% to 1.4K across all sites
- Lever 4: In the first sourcing cycle in July, 12 items were successfully sourced and approved by local team. These SKUs will be pushed for resource in Aug.

2.SKU Target Overachieve: SKU# at 747k (101% RR). Lever 3 at RR 197%, showing strong ramp up as onboarded sellers begin listing. SKU# is expected to reach 2M in Aug through seller mass pitching

3.Program PC2: -1.5% driven by re-investment in program sellers from MY(-0.7%) TH (-1.9%) and PH (-4.9%)

Highlights

- **Overall, MY/TH overachieved while SG/TW/VN/PH are behind target**
  - **SG**: RR 97%, incentives were in place to boost topline through PC2 reinvestment. MoM PC2% declined 4.7% to 3.4%. Fully sponsored SBD was pushed on 21 July for top seller Mahofficial to boost shop traffic and curate success case, successfully reaching 338 ADO, 5x of 7.7 ADO.
  - **TW**: RR 95%: mainly due to decrease in pgm impression (MoM -6.1%) and ads ROI (MoM -6.3%) Next step: To further discuss with TWCB for more traffic support
  - **VN:** RR 92%: due to buyer KYC starting from Jul 25 which has overall negative impact on CB, expected to recover 95% in Aug
  - **PH:** RR 86%: Jul MoM performance dip -14% due to over-investment in Jun from counter TTS item rebate for top seller. Align with PH to boost incentives aimed at driving new seller acquisition and building success case focusing on new and existing brand sellers.

**Program defined as proportion of universe sellers & SKUs that are given incentive package to support growth*

Highlights

1.ADO/ADG Target Underachieve: ADO 2.1k (97% RR), ADG $96K (99% RR) driven by underperformance in SG & TH from top seller 润泽优 due to operational issues (penalties, SKU delisting) and traffic decline in 中南 after reducing ads spending upon maxing their budget; both are expected to recover next month

2.SKU Target Underachieve: SKU# at 265k (RR at 97%) , impacted by operational issues from top seller 润泽优 in MY/TH—SKU delisting and upload quota limits. WIP to fix

3.Program PC2: 7.4%

Highlights

- **SG:** ADO below RR due to a top seller 润泽优 MoM -9% to 364 impacted by a mix of issues across shops: 1) 15% from POL whitelist expiry, 2) 35% from new shops with unstable traffic, 3) 40% from older SKUs facing strong price competition and unstable Ads performance and 4) 10% from penalty points, impacting campaign participation
- **MY**: SKU target below RR due to the same top seller 润泽优 MoM SKU -5K to 15K, due to delistings caused by 1) incomplete listing information, seller has been guided to complete the information and 2) SKU # 100 quota (vs 1000) for non-performing shops, we have begun discussion with CN Listing Ops to whitelist 润泽优
- **TH**: ADO below RR due to top seller 中南 mattress assortment shop MoM -23% to 174 due to top SKUs losing traffic after the shop exceeded its ad budget and raised ROAS mid-month to 20; aligned with seller to revert ROAS to 15 next month.

**Universe defined as identified TB sellers that are operating on SHP & SHP SKUs that are matched to TB top listings*
**Program defined as proportion of universe sellers & SKUs that are given incentive package to support growth*

Highlights

1.ADO/ADG Target Underachieve: ADO 1.0K (99% RR), ADG $7.9K (93% RR) due to:

- Limited seller pool due to restriction to grow only seller dedicated to Snack, Beverages and Condiment sub-categories which are more long tail in nature.
  - **Next Step:** We will expand our seller selection criteria to also include seller selling mixed categories but with strong sourcing capabilities.

2.SKU Target Underachieve: SKU#at 34K (78% RR), mainly due to Lever 3 challenges: only 2 of 15 onboarded shops have completed listings, and 34% of listed SKUs were delisted due to F&B restrictions in SHP vs.TB, such as logistics/license limitations on meat floss/fresh food.

- **Next Step:** To evaluate importation restriction with CN listing and logistic team and to expand the subcategories which can be imported. ETA: 8th Aug

Highlights

- **MY/SG**: ADO RR 98% due to program restricting sellers inclusion in program (limited to Snack, Beverages and Condiment), which are more long-tail and have slower growth. In discussion to loosen criteria to expand criteria to include more top sellers.
- **MY/SG**: Lever 3 SKU RR 6-7% due to Lever 3 challenges where only 2 of 15 onboarded shops have completed listings, and 34% of listed SKUs were delisted due to F&B restrictions in SHP vs. TB, such as logistics/license limitations on meat floss/fresh food. **Universe defined as identified TB sellers that are operating on SHP & SHP SKUs that are matched to TB top listings*
**Program defined as proportion of universe sellers & SKUs that are given incentive package to support growth*

Highlights

1.ADO/ADG Underachieve: ADO 16.5K (78% RR), ADG $126K (78% RR) due to:

- Lever 2 underperformance driven by limited shops (86) included in program. WIP to expand program list by reaching out to Tmall sellers + evaluating to extend to resellers to source for brand SKUs to ramp up in the short term.
- Performance is concentrated on top shop (Judydoll) MTD 2k who saw MoM drop in investment due to internal staff changes.

2.SKU Target Underachieve: SKU# at 7k (86% RR) mainly due to delay in SKU onboarding via Lever 3 for Beauty as July seller outreach mainly targeted traders through offline events, who typically do not focus on Beauty. Once mass pitching starts in Aug, we expect beauty to pickup—Beauty accounts for ~40% of the ERP seller pool.

3. **PC2%:** 2.5%

Highlights

- **Overall:** Brand sellers have longer processing time in new SKU sourcing, resulting in overall underachievement of Lever 2. WIP to include more high-potential sellers into the program by extending to resellers to source for beauty SKUs.
- **VN**: Lever 1 MTD 342 ADO driven by XiXicosmetics who onboarded in June, now at 218 MTD ADO driven by competitively priced assortment (ABS $1.4) and strong traffic investment (~$130/day in paid ads).
- **TH & TW:** ADO RR 83% & 80% due to top sellers Judydoll with delay in July investment due to operational staff change
- **MY:** ADO RR 87% due to 1) Florasis unable to join campaign due to late shipout >> still in the progress of appeal 2) Carslan 7.7 underperformance of top SKUs due to pausing investment in influencer live stream in July. Seller will resume influencer livestream in Aug.
- **PH**: Aligned with the Local CB team to extend the Beauty program to PH. Incentive support and budget requirements will be finalized next week to meet Dec'25 targets.

Key Highlights:

1. **By July, 205 Taobao sellers have accepted to join SHP, 150 sellers nominated for local review,** and **123 sellers joined program. YTD seller # RR 106%, Fashion / F&B off track:**
   a. **Fashion:** YTD **118** sellers accept to join SHP, **94** nominated, **78** joined program. **YTD RR 86%, mainly due to**:
      i. Out of 24 sellers not nominated yet, 20 sellers are small sellers with low willingness to invest in SHP or transferred to LT, **4 sellers accepted to join SHP after July new seller nomination DDL, local will review and add into program in Aug**
      ii. **4 sellers rejected by local** mainly due to **assortment requirement on core fashion** **>> collected re-nomination list for sellers rejected by local due to assortment limitations; to nego with local and improve program seller coverage, ETA Aug 4th**
      iii. **11 sellers pending shop opening** to join program and enjoy incentives >> SAI team will further push
   b. **Furniture**: YTD **48** sellers accept to join SHP, **34** nominated, **23** joined program. **YTD RR 144%**.
      i. 14 sellers not nominated, mainly due to 1) small seller with low willingness or transfer to LT/ERP (12); 2) Seller focus on CNLS
      ii. **9 sellers rejected by local** due to **product assortment not desired by local** (e.g., 软包, office furniture) **>> collected re-nomination list for sellers rejected by local due to assortment limitations, to nego and improve program coverage, ETA Aug 4th**
   c. **F&B:** YTD **5** sellers accept to join SHP, **2** nominated and joined program. **YTD RR 67%**, mainly due to:
      i. **3 sellers** accepted to join SHP **after July nomination DDL**, **local will review in Aug**
   d. **Beauty**: YTD **34** sellers accept to join SHP, **20** nominated & joined program, **YTD RR 333%** (high RR due to those sellers are acquired during last 3 months, and join program in Jul). 14 sellers not nominated yet are preparing to onboard to SHP.

Lever 2 - SKU Sourcing By Traders: YTD 55.2k new wishlist SKUs have been sourced, where 23.5k sourced in July batch, mainly from Fashion (21.6k), overall YTD RR on track (106%)

	Matched SKU #*	21,589	-	1,727	207	23,523
	SKU # RR	123%	-	209%	309%	128%

**Note: Current SKU sourcing performance is based on matched SKU#. PMO is reviewing reasonable price criteria based on SHP vs TBG price structure. Will show RR after price check once the new standard is confirmed.*

Key Highlights:

1. **Taobao wishlist sourcing progress:** YTD 55.2k new wishlist SKUs have been sourced, where 23.5k sourced in July batch (Fashion 21.6k, F&B 1.7k, Beauty 0.2k). YTD wishlist SKU# RR 106%, July batch RR 128%, both on track.
2. **To further increase sourced SKU #,** We try to include more matched SKUs in pgm and set reasonable price requirements to improve local pass rate:
   a. **Include more matched SKU in program (with incentives)**: starting from Aug, apart from seller manual upload, will utilize BI to match SHP focus category new SKUs and TB wishlist to increase match rate; will also discuss with local to increase % of matched SKUs covered in program incentives
   b. **Set Reasonable price requirements**: reviewing SHP vs TBG listing price structure to set reasonable price requirements for sourced new SKUs, ETA early Aug
3. **To update TB wishlist**: Will update & expand TB wishlists in Aug based on newly aligned keywords (~30 per category) to ensure that wishlist is effective and reflect seasonal changes in product listing.

Lever 3 - SKU Sourcing by ERP: Jul trial saw ADO uplift of 8% WoW to 198; automated onboarding process will be ready by 11 Aug, although mass pitching targeted seller # is still too low and needs to be increased

	WoW	8%	4%	-	-2%	-	-
... ABS	**MTD**	$8.73	$8.99	-	$5.05	-	$2.74

Key Highlights

1. Pool of interested sellers **increased to 60**; of which **14 sellers** that have listed with 37k items**, generated 129 ADO MTD,** saw 8% ADO uplift WoW
   a. Marketing efforts have started with ads, vouchers and campaigns set up. To join TB incentive program:
      i. [SG, MY, TH] Aligned to use new sellers acquisition package
      ii. [TW, VN] In discussions with mkts
   b. Automating onboarding process will be ready from 11 Aug; but the expected seller # from mass pitching for 2 ERPs is still lower than initially projected, and we are working with CN team to ramp this up further

Price Comp Updates

[Counter TB Price Comp Update] As of 28th July, net price comp (NPC) for top 1.8K matched TP SKU WoW +5%. Target to expand NPC SKU pool to all program SKUs and program sellers.

*% Net Competitiveness is defined as % of cheaper - % of expensive listing

Key Highlights

1. **Price Comp Definition:** Price comparisons between SHP and TBG will use Total Buyer Paid Price (F), instead of listing price (C). This includes tax, logistics, and transaction fees, ensuring a more accurate net price comparison. Using this revised definition (Price F), net price competitiveness improved from -29% (Price C) to -15% as of 23 July.
2. **Price Comp Push:** As of 28 July, the WoW net price comp for a shortlisted sample of 1.8K SKUs improved by 5pp to -10%. This was achieved through co-sharing with sellers, who reduced prices by at least 6%, while SHP provided 8–10% rebates.
3. **Next Step:**
   a. Price Comp Tracker Set Up: Working with CBBI team to script to automate price comparison calculation across all matched SKUs, estimated at 300K SKU. (ETA: 8.8)
      i. Calculate target price of each SKU for RMs and sellers to hit.
      ii. Calculate Shopee rebate (if needed) for SKUs to be price competitive.
