KRJP Bi-weekly agenda

1. **Overall Performance**
   1a. PnL performance
   1b. OKR performance
   1c. KRJP LFF ADO and LFF% Monthly Actuals

2. **For Updates**
   2a. KR Local OS onboarding
   2b. KR Counter TT : NPC Progress by markets x by SMT teams (Yebin)
   2c. KR TW Counter Coupang : Update on Targets/Budget & Progress (Hyunji) + KR/JP SIP Assessment (Shuning/Zhang Yu)
   2d. KRJP Campaign Participation for SG/MY (Hyeyun)
   2e. KRJP RM Productivity Improvement Tools Update (Hyeyun)

Follow up from previous meeting

#	Topic	Action Items	PIC	Deadline	Status
1	Distributor Onboarding (Priority 1)	1) Check if brands can meet our targets as CB shop (LFF 100%, NPC >60%, Assortment gap 0%) by end of Nov, and if not then 2) Check with brands if they can give approval for distributors to open OS on SHP. 3) 5 priority sellers for MY: ● COSRX ● SBM ● RoundLab ● Dalba ● TirTir	Yebin Ju Chowon Yun Helena Choi Chaemin Yoon	Nov 14	Will share in this biweekly meeting
2	SKU Migration Potential Biz Model (Priority 2)	**SIP-model feasibility check:** ● Migrate brands' SKUs to random shops while brands do fulfillment. ● Considerations:Marketing mark-up and price competitiveness after mark-up	Zhang Yu	Nov 18	Will share in this biweekly meeting
3	Program Revamp (Priority 3)	1) Check with SMTs if paid ads is strong enough to persuade sellers to move 2) Work with Jason to improve existing programs (w/t exposures) across all markets	Hyunji Seo Hyeyun Choi Chansong Son	Nov 28	Will share in this biweekly meeting
4	Penalty Waiver System (Priority 4)	Work with Jason and local Ops team on what support KRCB need to develop penalty waiver system to accelerate reseller migration	Hyunji Seo Saeyeon Jung	Nov 14	Will share in this biweekly meeting

Follow up from previous meeting

#	Topic	Action Items	PIC	Deadline	Status
5	Take-rate	1) Share Nov budget and projection together with historical trend 2) Share Take-rate breakdown moving forward: (1) Commission (2) Paid Ads	Kayoung Choi	Nov 21	Done
6	GTF projection	Share the latest confirmed PRM budget and the latest GTF projection based on this.	Haenle Suh	Once confirmed from CBBI	Done
7	MY Livestream & Video Push	Since MY has livestream and video program, push Torriden ASAP to migrate LS and video exclusive SKUs.	Yebin Ju Chaemin Yoon	Nov 21	~Dec EOD (price & assort)

1a. Topline

KRJP Nov Topline : KRJP Topline RR 113%(MoM +21%, growing faster than PLT in all markets excp. BR) mainly from KRJPs' good 11/11 in VN/TH/SG/MY market from aggressive promotions and ads spending

Date: 11/1-11/17

Key Highlights

1 **KRJP Topline** : KRJP expected to close with ADO RR 113%/ADG RR 110% growing MoM +21%faster than PLT in all markets(excl. BR)

- KR MoM +29% driven by strong growth in key markets such as VN/TH/SG/MY from aggressive promotion(e.g. GWP, KOL collaboration) coupled with new product launch and gov't subsidy
- JP MoM +9% from strong 11/11 especially in MY/TW from push on paid ads

2 **KRJP MP PC2 + SLS PnL**: KRJP PnL $1.75mil with RR 83% missing total $0.35mil ($0.55mil in PC2 while SLS PnL making up $0.2mil) - *details in pg 8*

- 2-1 KR Commission TR% miss mainly from drop in G2N, likely from 11/11 impact - *will check seasonality(ETA EOW)*
- 2-2 KR CIR% landing 15.82%(0.42p.p higher) especially in MY/VN from heavy PRM spending in 11/11
- 2-3 KR Net ads Rev RR 102%(MoM 14%) but missing TR% target from faster growth in GMV

Appendix - KRJP Combined Gap vs. Target contribution analysis

Key Highlights : KRJP Nov(as of 11/17) MP PC2+SLS PnL miss target by 0.35mil

- +$0.2mil surplus in SLS PnL
- -$0.55mil gap is from MP PC2
  - 1 Ads -0.15mil gap coming from missing TR% target especially SG/MY/TW from GMV growth as the overall Net ads spending is ahead of target
  - ○ Commission -0.2mil gap mainly from drop in G2N for most markets(Nov MTD G2N vs. Oct MTD) likely due to 11/11 impact - *(Next step) will check seasonality (ETA EOW)*
  - 2 CIR% - 0.2mil gap mainly from MY/VN. In general CIR% increased MoM 1.15%p, highest markets being TH/MY/VN

3	KRJP LS ADG as % KRJP SEA+TW	7.3%	9.6%	/	8.9%	107.5%
	KRJP Video ADG as % KRJP SEA+TW	4.4%	5.02%		4.0%	125.6%
	KRJP XDD+NDD coverage %	31.4%	37.7%		33.0%	114.2%
5	KRJP average BWT	7.02	5.86		7.25	80.8%
	KRJP CPO	2.96	$2.83	$2.97	$3.36	88.3%
4	KRJP local fulfilled ADO as % KRJP LFF markets	36.7%	43.5%	42.0%	36.7%	114.4%
	KFBS ADO	1,930	2,531	2,148	1,881	114.2%

Note:

1. *Competitor related metrics(ADG share in SEA, ADO% to platform's origin SKU ADO) are M-1 actual vs. M-1 target due to the time limitation of gov't official data publish period and processing time*
2. *New seller definition is sellers' which go-live after '24 Oct onwards*
3. OKR items without EOM projections, RR is based on MTD actual vs. Target

Key Highlights

1 **KRJP Topline OKR:** In Nov, KRJP topline related indicators are strong showing ADO RR 127%

KRJP Key growth driver OKR:

2 JP new seller # to close ahead of target by 800(highest of '25) with RR 185%, driven by offline event and lead CVR optimization while KR new seller ADO also grew well, especially from managed new brands' KOL collab in 11/11

3 LS grew across VN, TH, and MY driven by strong KOL livestream performance, while VDO saw MoM +4% increase in ADG share with the content voucher scheme

4 LFF to close ahead of target with RR 114% from strong 11/11; 1) VN Cosrx 3PF stock clearance for local shop conversion (36% of VN MoM ADO growth) 2) SG/MY new LFF sellers' timely onboarding via subsidy (10% of SG/MY MoM ADO growth)

Logistics OKR: all hit target, especially short BWT from 1) KRVN LH stabilization, 2) KRMY XDD channel reopen and 3) increase of LFF penetration 5

2a. KR Local OS Onboarding

[Local OS Onboarding Plan] Brand scenarios and corresponding action plan

Brand Type

- **A** SHP-TTS brands with existing local OS
- SHP-TTS brands with no local OS
  - **B** Gave consent to open local OS
  - Rejected giving consent to open local OS
    - **C** Vendor contract forbids vendor from operating on SHP (only HQ to operate)
    - **D** Vendor contract doesn't specify HQ's exclusivity on SHP
- **E** SHP-only brands (no TTS yet)

Action Plan for each Brand Type *(details next slide)* Plans for Type E as TBC

D Push to open local OS to bring TTS-only assortment

Reasons for rejecting SHP's initial push	Action items	
1) Branding confusion to buyers	1. Offer upsized cofund voucher for HQ-run shop	2. Enable traffic prioritization to HQ-run shop
2) Traffic diverged between CB vs local shop		
3) Less immediate control on price, branding		
4) Negotiation is between brand<>vendor based on each vendor's contract terms	3. Push vendor about brands' incentive to initiate local OS request	

A~D Offer KOL LS to defend SHP exclusive SKU (as CB channel is open) and to match TTS assortment

Reasons for not matching TTS SKU	Action items
1) No stock or discontinued item	N/A
2) TTS offers more KOL LS campaigns	4. Bonus incentive if match TTS assortment AND have exclusive assortment on SHP (via HQ or local OS): guaranteed dedicated Top KOL livestream monthly (1K ADG) for 6-12 months exclusivity

[Local OS Onboarding Plan] Action item timeline and PIC

Main reason for brands reluctant to agree to open local OS: KR Brands want to have a single OS mall on SHP and want to have HQ run directly, because they want to have control of their brand image details (from marketing contents to product description word choice). Their position is to keep their buyer experience with a uniform branding under HQ's control therefore not allow shops outside their control to represent the brands' OS. TTS is run by vendor because brands have no other choice for now. **As CB channel is open for TTS, when brands can terminate local vendor contract and bring TTS also inhouse (HQ-run), we expect this to be beneficial for our price parity but risky in keeping our SHP-only SKU which now may be available to TTS via CB channel**

Solution: To solve for brands' concerns, we discussed what incentives we can get from local teams to be able to re-approach and incentivize brands' HQs. To also push from vendor side, we aligned on the need to approach the local vendors by Local Team, as the terms & conditions for opening in new platform differ across each brand<>vendor's contracts

#	Action items	Project PIC	Execution PIC	ETA	Status
1	Approach brand HQ to 1) sense the willingness level to open local OS, and 2) identify key blockers, reasons for no willingness and what will move them	KR (Yuna+Chowon)	KR SMT Team Leads	11/7 -11/18	Done except SMT2 (new ddl 11/21)
2	Design incentive package for KR brands to open a local OS **(Latest : Offer upsized cofund voucher for HQ-run shop. Details TBC)**	Reg CB (Kaiwen)	tbc	11/19 -11/28	In progress
3	Secure traffic prioritization logic details for HQ-run shop over local OS **(Latest : Secure brand keyword for organic search is locked for HQ-run shop. Details TBC)**	Reg CB (Kaiwen)	tbc	11/19 -11/28	In progress
4	Secure KOL livestream slots to match TTS assortment and keep SHP exclusive SKU **(Latest : guaranteed dedicated Top KOL livestream monthly (1K ADG) for 6-12 months exclusivity)**	Reg CB (Kaiwen)	tbc	11/19 -11/28	In progress
5	Present proposals from the above through T2T Yuna x brand meeting and proceed negotiation/persuasion with each KR Brand.	KR (Yuna+Chowon)	KR SMT Team Leads	12/1 -12/12	Not started
6	Get final decision from each KR Brand HQ side	KR (Yuna+Chowon)	KR SMT Team Leads	12/19	Not started
7	Approach to TTS vendors to find out 1) if they are willing to open Local OS and 2) identify their contract terms to see what's required to move them to open local OS	Reg CB (Kaiwen)	tbc	12/1 -12/12	Not started

[Backup] Brand list for each type (MY)

Brand Type	Brands
A SHP-TTS brands with existing local OS	A • Cosrx • Somebymi • Wishtrend (local vendor shop name Dear Klairs)
SHP-TTS brands with nolocal OS B Gave consent to open local OS	B • N/A
SHP-TTS brands with nolocal OS Rejected giving consent to open local OS C Vendor contract forbids vendor from operating on SHP (only HQ to operate)	C • Dralthea • Roundlab
SHP-TTS brands with nolocal OS Rejected giving consent to open local OS D Vendor contract doesn't specify HQ's exclusivity on SHP	D • Torriden • Dalba • VTcosmetics • Isntree • Grafen • Tirtir • Meditherapy • Skinfood
E SHP-only brands (no TTS yet)	

Private & Confidential

2b. KR Counter TT : NPC and SKU Progress for all markets

[NPC ADO - MY] All brands either achieving NPC >60% or showing NPC improvement for both WoW and MoM, except VTCosmetics.os

- **MY** : SMT team focused on price alignment for the 11.11 weekly target, resulting in WoW improvement for all sellers except two sellers (vtcosmetics.os, isntree_official.my). The team is currently allocating most resources to improving MY NPC and is managing weekly f/u.

* NPC ADO - local BI working on it

[NPC ADO - TH, VN] All brands either achieving NPC >60% or showing NPC improvement for both WoW and MoM, except Somebymi.vn

- **TH** : On 11.11, cosrx.th & dralthea.th had expensive SKU # mismatches of up to 50% and the data will be corrected and reflected. WoW and MoM have generally improved, but we are discussing incentive with the TH team to support seller improvement. 4 more shops are planned to be added.
- **VN** : Due to resource constraints, we haven't been able to respond directly, but we plan to start at the end of Nov. Sync-up meeting with the VN team is scheduled, and we will begin discussing improvement measures starting with somebymi.vn.

2c. KR TW Counter CP Update on Targets/Budget & Progress + KR/JP SIP Assessment

[Overall] KRCB has achieved MTD RR of 119% and expects EOM RR of 104%, which was driven by 1) rise in NPC via vouchers and 2) expansion in assortment via SKU migration; KRCB will focus on SKU migration incentive revamp & reseller penalty waiver

Key Highlights

1. **Based on updated targets, MTD RR reached 119% (ADG: 319K) and EOM RR (ADG: 281K) is projected to be 104%**
2. **Strongest drivers were price-wise, NPC improvement via platform issued vouchers & assortment-wise, SKU migration from resellers**
   a. NPC improvement: NPC improved to -8% from -71% in Oct, due to issuing CIR 30% vouchers for 1,060 matched SKUs (can see p.23 for details)
   b. Reseller SKU migration: Resellers met ~300% of Oct target (mostly Beauty for now) as RMs were given KPIs for TW migration starting from Nov
3. For the remaining days, KRCB plans to focus on assortment - revamping SKU migration benefits & reseller whitelisting
   a. Revamping SKU migration benefits: Aligned with SMT & TW teams to expand paid ads/voucher & exposure benefits (can see p.25 for details)
   b. Reseller penalty waiver: Whitelist certain resellers for certain penalty issues to remove penalty after/if penalty is issued to seller

[Price (NPC)]: Due to vouchers against 1,060 matched SHP expensive SKUs , KRCB TW NPC improved to -8% by 63% MoM

Key Highlights

1. **[Progress] NPC improved to -8% (+63% vs Oct -71%) as TW platform issued CIR ~30% vouchers to all 1,060 SKUs**
   a. During 1st ~ 17th of Nov, TW issued <40% CIR vouchers to all 859 matched SKUs (excl SHP cheaper SKUs)
   b. From 18th of Nov, TW issued <30% CIR vouchers to SKUs with <45% price cap against Coupang for 1,060SKUs

As of 2025-11-19

[Assortment] In assortment, KRCB was able to reach RR of 522% of SKUs driven by SKU migration, but was only able to meet ~70% of seller RR due to depletion of wish list; KRCB plans to focus on migration incentive revamp & reseller penalty waiver

**Counting all new live SKUs since Nov for targeted shops; High RR due to difference in estimating actuals vs targets (targets based on specific target SKU list) - KRCB will update target in the next report*

Key Highlights

1. **[RR] Through strong drive in SKU migration, KRCB reached SKU RR of 522% and seller acq RR of 69%**
   a. SKU RR is very high due to updated calculation method, which counts all new live SKUs from shops with targets for migration
   b. However, this does not guarantee higher match rate, as migrated SKUs might not be sold on Coupang
   c. Therefore, KRCB will update targets so that calculation method is aligned with actuals
2. **[Progress] 'SKU migration' was able to grow due to the push of migration RM KPIs**, while **'new brand sourcing' has hit a wall due to remaining brands all having refused onboarding (had high RR% for Oct)**
   a. SKU migration: As migration KPIs were assigned to SMT from Nov, SMT focused efforts on TW migration, along w/ organic migration
   b. New brands: SA team has reached out to all brands who are willing to onboard, the remaining brands are those who refused to
3. **[Plans] KRCB plans to 1) double-down on SKU migration via incentive re-vamp & 2) penalty waiver for resellers 3) tackle blockers to brands acquisition via ERP & local distributor onboarding, 4) conduct SIP assessment** (can see p.28 for details)
   a. 1) KRCB proposes updated existing SKU migration incentive program, focused on paid ads/vouchers
   b. 2) whitelisting key resellers x penalty issues to encourage active sourcing *(Progress: shared list to local, waiting for confirmation)*
   c. 3) To mitigate blocker of manpower for brands, KRCB is in discussion with ERP provider to integrate and onboard shops via ERP (can onboard 20% of unresponsive/refused brands)

[Assortment] KRCB proposes revamp of current SKU migration incentive program, to expand (brands) paid ads/& (for resellers) vouchers along with increased exposure support; To execute, KRCB requests approval for voucher budget of ~$34K by EOY

Metric	Nov	Dec
Total budget	**$23,339**	**$35,533**
Paid Ads	**$10,080**	**$14,700**
F&B	$0	$1,120
TKB	$420	$700
Beauty	$9,240	$12,320
Fashion	$0	$0
Ask for approval Others	$420	$560
Vouchers	**$13,259**	**$20,833**
F&B	$0	$13,131
TKB	$6,378	$3,705
Beauty	$4,238	$2,487
Fashion	$509	$291
Others	$2,134	$1,220

Key Highlights

1. **Program revamp: KRCB proposes incentive program 1) providing more exposure opportunities and 2) free credits in (for brands) paid ads & (for resellers) voucher**
   a. 1) Exposure: Per discussion with local team, CB Circle & Category Festival exposure slots can be provided for targeted Counter-CP SKUs
      i. Along with paid ads/voucher, SMT believes exposure is necessary as a) effect of paid ads/vouchers would be amplified with exposure and b) short-tail sellers already spend high amount in paid ads, and therefore would not view paid ads as a strong incentive for migration
   b. 2) Paid ads/Vouchers: Given Shopee is a search-based platform, paid ads (SA) is the key driver to driving performance; Also, SMT input that resellers tend to value vouchers as most attractive because resellers' competitiveness comes from prices
2. **Budget for paid ads/vouchers: KRCB requests a total of ~$34K budget of vouchers for Nov + Dec (Paid Ads budget to spend the already-allocated $10K budget for now that has $7k remaining - Will request for the remaining $18k to TW Local)**
   a. Calculation logic: Assume providing 10% CIR for 14 days for all migrated SKUs
      i. Back-up: Per MS input when given exposure, sellers typically should spend at least CIR 10% for 14 days to see meaningful rise in sales at early stage
   b. Paid Ads currently has budget of $10K allocated for SKU migration program, but will need Local Team's approval if exceed $10K

[F&B] KRCB updated F&B targets from 8K to 5K bc 1) items incl meat/seafood banned due to African Swine Flu and 2) channel open delayed to Dec; KRCB proposes to follow current channel open schedule yet source F&B SKUs before channel open

Key Highlights

1. **KRCB decreased F&B targets from 1.7K to 0.1K in Nov & 8K to 5K to reflect impact of 1) African Swine Flu regulations on CB banning items including meat/seafood and 2) F&B TW SLS channel open delayed to Dec** (However, impact from ASF might increase as more items get banned from Listing Team)
   a. **Of ~3K decrease, 1K (34% of drop) was due to 1) and 2K (66% of drop) was due to 2)**
   b. 1) African Swine Flu dictates that CB platforms do not sell items with meat/seafood ingredients to prevent outbreak of the disease
      i. Even in the future, all sellers & SKUs wishing to be sold have to pre-confirmed by TW Listing Team
   c. 2) Channel open was delayed to mid Dec - EOY as Reg Marketplace Team is held up by high-priority projects, which means they will not be able to start development for the checkout flow which requires buyers to input and verify their IC for F&B purchase in TW until Dec
2. ***For discussion*** **Although 2) is the main reason for target drop, KRCB suggests maintaining current channel open schedule due to other projects under BPM being of higher impact; In the meanwhile, KRCB plans to initiate sourcing of F&B goods so sellers can start selling right away as channel opens**
   a. Next steps: KRCB Projects Team will 1) share channel open details to managed sellers via SMT, 2) prepare F&B-exclusive benefits (TBC), and 3) contact unmanaged sellers directly via BPO manpower

*ICB + SA: Incubation and before incubation; PSP: + SMT + GR: managed seller; CS: unmanaged sellers

Key assumptions

1
- **SKU migration potential** is 4.3M in 8 markets, to close the gap between the shop MTSKU count vs each market existing shop SKU count
- **SIP eligibility rate** assumes 0% for ICB & SA and 60% for others (benchmarking CNSIP)
- **SIP acceptance rate** assume to be 70% for all sellers based on **opt-out model**
- **Migration efficiency** is 50% from acceptable shop SKU to live SKU after SIP migration, mainly due to prohibited categories, listing QC issues and system sync failure
- **SIP ADO efficiency** is 10-20% of self run shop SKU efficiency, based on CNSIP benchmark.

2
After the proof of market, SIP will return shops to good performing shops, which will be **9.8K ADO potential**, assuming returned shop will have the same SKU efficiency as existing self run shops

System Efforts

- KRSIP can ride on existing KRSC, and allow for seller onboarding, listing, shop management, payment and fulfillment following CNSIP.
- **Estimated Dev Efforts 8 weeks**

[JPSIP] Estimated 1.2K ADO potential (2.9K ADO potential after shop return), with 11.8M SKU migration potential in 7 markets. System develop efforts estimates to be 15 weeks

Metrics	Seller type	SG	MY	TH	PH	VN	TW	BR	MX	Total

*ICB + SA: Incubation and before incubation; KAM: managed seller; CS: unmanaged sellers

Key assumptions

1

- **SKU migration potential** is 11.8M in 7 markets to close the gap between the most shop SKU count vs each market existing shop SKU count
- **SIP eligibility rate** assumes 0% for ICB & SA and 60% for others (benchmarking CNSIP)
- **SIP acceptance rate** assume to be 70% for all sellers
- **Migration efficiency** is 50% from acceptable shop SKU to live SKU after SIP migration, mainly due to prohibited categories, listing QC issues and system sync failure
- **SIP ADO efficiency** is 10-20% of self run shop SKU efficiency, based on CNSIP data.

2

After the proof of market, SIP can return shops to good performing shops which will be **2.9K ADO potential**, assuming returned shop will have the same SKU efficiency as existing self run shops

System Efforts

- JPSIP needs to be developed after JPSC development, which requires additional 7 weeks development time.
- **Estimated Dev Efforts 15 weeks**

[Backup] KRSIP requires 8 weeks of development efforts, while JPSIP requires additional 7 weeks due to unavailability of JPSC. Propose to prioritize KRSIP given less development efforts and higher impact

Product Line	JPSIP with JPSC first	KRSIP
Seller Center Creation	**Create JP Seller Center (similar to CNSC, KRSC)**	**Already have**
Seller Migration to JPSC	**Needed**	**No Need**
Seller Onboarding	Add CB merchant = JP. Shop opening configuration to onboard CB P shops.	Same as left
Seller Management Platform	Implement CBSC shop selector to allow sellers to access/manage their SIP A shops.	Same as left
CS	Allow SIP agents to attend to SIP Ashop CS	Same as left
Listing Upload	SIP config for listing migration, SIP Item Price display, and P-A listing synchronization/management rules.	Same as left
Promotion-Price	Price config and CBSIP price features (e.g., SIP rate calculation, SIP Item Price, country margin configuration).	Same as left
CMT	Configuration for SIP Campaign Settlement Price (CSP) set-up.	Same as left
Clearing & Settlement	Support for 3rd-Party Payment services and settlement using SIP supplier escrow for A shop orders.	Same as left
Return Refund	Feature to allow the JPCB seller to respond to A shop Return/Refund (RR) requests via the JPSC.	Same as left
Seller Fulfilment	Integration of the FM pre-declare module, which is a required standard for CBSC sellers.	Same as left
Total Overall Development Effort	**15 weeks**	**8 weeks**

[Backup] JPSIP system prefers to create JPSC and utilize CNSIP config. Using existing local SC cannot support centralized shop operation

	Option 1: JPSC + CBSIP	Option 2: Local SC + CBSIP
Content	1. Create JPSC first 2. Migrate JP sellers to JPSC 3. Enable JPSIP on JPSC, similar to CNSIP on CNSC	1. JP seller continues to operate on each Local SC 2. Customize each module to support JPSIP 3. Replicate the customization for each Local SC
Development Effort	**15 weeks**	**20-30 weeks**
Pros	- Clean solution, **same set up as existing CNSIP** for CNCB sellers - Any SIP improvements can be easily applied to all CBSC (CN/KR/HK/JP) - Less development effort - Better seller UX from operating on JPSC (e.g. **easier listing publish across shops, consolidated business insights**)	- No seller center migration effort
Cons	- Take time to migrate sellers from local SC to JPSC **[KR migration took ~9 months to complete migration]**	- Indirect solution, all product lines need to deepdive on if there is any unknown backend blocker - Any SIP improvements need to implement to CBSC and each local seller center, not the best use of engineering resources - Seller operation is less efficient for CB sellers as **Local SC does not allow for centralized shop operation**

2d. KR/JP Campaign Participation Progress for SG/MY

SG KRJP Campaign: KRJP grew 11.11 vs 10.10 for both DD/SSV while JP DD showed 4%p drop(Baseline ADG increased Nov vs. Oct) and plan to replicate KR wishlist SKU bank for better prioritization on top SKUs

KRJP SG Big campaign(DD/SSV) coverage %

Big Campaign		# sellers			Target ADGMV %			Actual ADGMV %			CNCB Actual ADGMV%		
		10.10	11.11	11.15	10.10	11.11	11.15	10.10	11.11	11.15	10.10	11.11	11.15
DD	JP	116	151		34%	39%		23%	19%		68%	58%	
	KR	116	134		86%	87%		81%	86%				
	SMT1	6	6		98%	98%		99%	100%				
	SMT2	21	21		93%	91%		89%	94%				
	SMT3	35	46		75%	78%		67%	74%				
	PSP	54	61		62%	72%		58%	64%				
SSV	JP	116	151		36%	36%		43%	88%		72%	59%	
	KR	113	135		88%	87%		87%	87%				
	SMT1	6	6		100%	100%		100%	100%

	SMT3	35	47		79%	77%		79%	78%				
	PSP	51	61		74%	59%		60%	63%				

1

Key Highlights

1. There is no 11.15 target as 11.11 sale extends till 11.19. 11.11 & 11.15 targets have been merged.
2. 1 **JPCB:** For DD Nov baseline ADG increased vs. Oct while the actual ADG did not catch up, leading to 4%p drop in coverage, however for SSV, after changing the enrollment process to opt out only for manages sellers, the ADG coverage increased to 88% on par with KR
   -> Next step: Replicate KR best practice of local provided wishlist SKU bank(top ADG SKUs with target price), which help RM resource prioritization on top of ADG coverage increase/order uplift(ETA end of Nov)
3. **KRCB:** 11.11 RR +5%p & +0%p vs 10.10 for DD and SSV. 11.11 RR vs CN was higher by +28%p for DD and SSV.

MY KRJP Big Campaign: KRJP grew 11.11 vs 10.10 for LTD and DDV. KR had a drop 11.15 vs 11.11 in DDV due to late responses from resellers while JP grew 11.15 vs 11.11 for DDV. KRJP had a drop 11.15 vs 11.11 in LTD due to bigger OOS/Delisted SKUs.

KRJP MY Big campaign(LTD/DDV) coverage %

Big Campaign		# sellers			Target ADGMV %			Actual ADGMV %			CNCB Actual ADGMV%		
		10.10	11.11	11.15	10.10	11.11	11.15	10.10	11.11	11.15	10.10	11.11	11.15
LTD	JP	142	139	139	26%	33%	~~28%~~	4%	11%	9%	70%	73%	69%
	KR	128	122	122	67%	73%	65%	60%	68%	62%			
	SMT1	6	6	6	84%	84%	76%	83%	84%	76%			
	SMT2	18	18	18	75%	65%	1 67%	71%	54%	53%			
	SMT3	57	55	55	58%	75%	67%	49%	71%	63%			
	PSP	47	43	43	22%	68%	63%	19%	63%	58%			
DDV	JP	142	139	139	100%	100%	~~100%~~	38%	84%	94%	88%	90%	91%
	KR	128	122	122	100%	100%	100%	85%	93%	83%			
	SMT1	6	6	6	100%	100%	100%	100%	100%	100%			
	SMT2	18	18	18	100%	100%	100%	95%	97%	97%			
	SMT3	57	55	55	100%	100%	100%	71%	89%	65%			
	PSP	47	43	43	100%	100%	100%	67%	83%	83%			

Key Highlights

1. Target and Actual calculation method was changed to align with local team where local team uses ADG coverage % against the Benchmark ADG when KR was focusing on absolute voucher/nominated SKUs ADG budget against target amount(not benchmark ADG)

1 **JPCB:** MY showed good uplift for both LTD/DDV, LTD increasing 7%p(4% to 11%) and DDV 46%p(38% to 84%) by changing the enrollment to opt-out process similar to SG
-> Next step: despite that the Target ADG % is lower fo JP, there is a significant gap in the actual ADG% even compared to SG DD(especially LTD relatively LOWER criteria & pushing sellers for P3M) thus will study and replicate what KR team is doing vs. JP and share the progress(ETA end of Nov)

3. **KRCB:** 11.11 RR +8%p & +8%p vs 10.10 for LTD and DDV. 11.15 DDV RR -10%p vs 11.11 due to slow response of resellers in SMT3(77% contrib. to DDV target shortage). 11.15 LTD RR -6% vs 11.11 due to more OOS/Delisted SKUs, thus 11.15 target also decreased by -8% vs 11.11.

2e. KR/JP RM Productivity Improvement Tools Update

[Red & Black Performance Tracker] SMTs can take quick actions for campaign participation push by using this tool as SMT teams can quickly identify which 1) team, 2) RMs, 3) sellers are behind the target and how much is the target shortage.

Step 01
Identify which team is behind the target

In the summary tab, teams can quickly check campaign participation RR trends by team in MY(LTD/DDV) and SG(DD/SSV) for the 3 consecutive spike-days.

		# sellers			Actual Nominated SKU ADG/Voucher %		
		Peak day 1	Peak day 2	Peak day 3	Peak day 1	Peak day 2	Peak day 3
Big Campaign		10.10	11.11	11.15	10.10	11.11	11.15
DDV	JP	142	140	140	28%	83%	72%
	KR	128	122	122	73%	84%	73%
	SMT1	6	6	6	100%	100%	100%
	SMT2	18	18	18	93%	96%	95%
	SMT3	57	55	55	67%	74%	47%
	PSP	47	43	43	43%	79%	85%

Step 02
Go to Team/RM/Seller Tracker

In the Team/RM/Seller Tracker tab, teams can check target RR by market/ campaign/ team/ RM/ seller at once.

Market	Campaign Type	Team	RM	Shop Name	Target	Actual	Target Shortage	Target RR
MY	LTD	KRCB Managed	KRCB Managed All		$265,229	$249,991	$15,239	94%
MY	LTD	SMT1 All	SMT1 All		$109,767	$109,591	$176	100%
MY	LTD	SMT1 All	JINHO HEO		$43,885	$43,708	$176	100%
MY	LTD	SMT1 All	DAIN SONG		$31,201	$31,201	$0	100%
MY	LTD	SMT1 All	GYEHYANG NAM		$34,682	$34,682	$0	100%
MY	LTD	SMT1	jinho heo	cosrx.os	$25,804	$25,628	$176	99%
MY	LTD	SMT1	jinho heo	vtcosmetics.os	$18,080	$18,080	$0	100%
MY	LTD	SMT1	dain song	dalba_korea.my	$22,641	$22,641	$0	100%
MY	LTD	SMT1	dain song	isntree_official.m	$8,559	$8,559	$0	100%
MY	LTD	SMT1	gyehyang nam	somebymi.os	$29,371	$29,371	$0	100%
MY	LTD	SMT1	gyehyang nam	beplain.os	$5,311	$5,311	$0	100%
MY	LTD	SMT2 All	SMT2 All		$57,410	$56,445	$964	98%
MY	LTD	SMT2 All	HAYOUNG KIM		$18,512	$18,512	$0	100%
MY	LTD	SMT2 All	EUGENE KIM		$16,761	$16,350	$412	98%
MY	LTD	SMT2 All	SANGYOON KIM		$9,900	$9,885	$16	100%
MY	LTD	SMT2 All	SOHYUN KWON		$12,235	$11,698	$537	96%
MY	LTD	SMT2	hayoung kim	tirlirofficialjo.my	$2,887	$2,887	$0	100%
MY	LTD	SMT2	hayoung kim	wishtrend_officia	$7,621	$7,621	$0	100%
MY	LTD	SMT2	hayoung kim	fwee.official.my	$124	$124	$0	100%
MY	LTD	SMT2	hayoung kim	roundlab.my	$7,099	$7,099	$0	100%
MY	LTD	SMT2	hayoung kim	papaprecipe.my	$438	$438	$0	100%

Step 03
Identify which RMs and Sellers behind target

In the Team/RM/Seller Tracker tab, teams can filter by team to quickly identify which RMs and sellers are behind target(highlighted in red) and take quick actions.

Market	Campaign T	Team	RM	Shop Name	Target	Actual	Target Short	Target RR
MY	DDV	SMT3 All	SMT3 All		$18,400	$8,700	$9,700	47%
MY	DDV	SMT3 All	JUEUN LEE		$4,600	$4,300	$300	93%
MY	DDV	SMT3 All	AEJI LEE		$6,900	$2,000	$4,900	29%
MY	DDV	SMT3 All	SANGMOK LEE		$6,300	$2,100	$4,200	33%
MY	DDV	SMT3 All	SUSANNA CHO		$600	$300	$300	50%
MY	DDV	SMT3	jueun lee	obge.my	$300	$300	$0	100%
MY	DDV	SMT3	jueun lee	fully_my	$300	$0	$300	0%
MY	DDV	SMT3	jueun lee	oganacell.my	$300	$300	$0	100%
MY	DDV	SMT3	jueun lee	aesfura.os	$300	$300	$0	100%
MY	DDV	SMT3	jueun lee	foodology.my	$300	$300	$0	100%
MY	DDV	SMT3	jueun lee	torridenofficial.o	$2,800	$2,800	$0	100%
MY	DDV	SMT3	jueun lee	rejurancy.my	$300	$300	$0	100%
MY	DDV	SMT3	aeji lee	sixkshop.os	$300	$300	$0	100%
MY	DDV	SMT3	aeji lee	cosmokor.my	$300	$0	$300	0%
MY	DDV	SMT3	aeji lee	kpopfever.os	$400	$0	$400	0%
MY	DDV	SMT3	aeji lee	withmuu.os	$300	$0	$300	0%
MY	DDV	SMT3	aeji lee	pearlingarnetcz.r	$0	$0	$0	
MY	DDV	SMT3	aeji lee	md_ezbuy.my	$300	$0	$300	0%
MY	DDV	SMT3	aeji lee	recordplanet.my	$300	$0	$300	0%
MY	DDV	SMT3	aeji lee	stylemitekorea.r	$300	$300	$0	100%

[Prioritization Tool] SMT can prioritize which sellers to push for campaign participation based on ADG coverage %.

Example: Prioritization tool for DDV

Shop Name	SMT	RM	Target	Actual	Target Shortage	Baseline ADG	Target Shortage by Linear ADG
Total			$44,000	$32,197	$11,803	$419,308	$64,415
kpopfever.os	SMT3	aeji lee	$400	$0	$400	8348	$8,348
sworbh.my	SMT3	sangmok lee	$300	$0	$300	5408	$5,408
withmuu.os	SMT3	aeji lee	$300	$0	$300	5335	$5,335
bestkoreanitems	SMT3	sangmok lee	$300	$0	$300	5334	$5,334
vodanaofficial.m	SMT3	sangmok lee	$300	$0	$300	4881	$4,881
jolse.my	SMT3	sangmok lee	$300	$0	$300	4568	$4,568
wellpeak.my	SMT3	sangmok lee	$300	$0	$300	3952	$3,952

Private & Confidential

How to use in practice

1. In the summary tab, SMTs can first identify which campaigns they are behind the target
2. Go to the campaign prioritization tool
   a. MY DDV
   b. MY LTD
   c. SG DD
   d. SG SSV
3. In the prioritization tool, Teams can check seller priority based on linear ADG coverage.The list is sorted in descending order based on the Linear ADG target shortage.
   a. **Linear ADG**: (actual/target) * baseline ADG
   b. **Linear ADG target shortage:** Baseline ADG - Linear ADG

[Appendix] Campaign Participation Toop expansion plan & timeline

Step	Item	Subtasks/ Things to check	SG	MY	PH	TH	TW	VN
1	Campaign Alignment	Align with local teams on which campaigns to track. **[Criteria]** Campaigns that require sellers to provide discount on SKU or Voucher to secure price competitiveness.	[Shop-level] SSV [SKU-level] DD	[Shop-level] DDV [SKU-level] LTD	[Shop-level] DD [SKU-level] Payday sale(15th & 30th)	[Shop-level] seller sponsored voucher [SKU-level] deal nomination for product overlay	[SKU-level] Marketing page CB Circle	[Product-level] DD
2	Target Logic Alignment	Align with local teams on target and actaul calculation (denominator & numerator)	Done	Done	Done (MY benchmark)			
3	Inrfa set-up (1. Target RR Tracker, 2. Red&Black Performance Tracker, 3. Prioritization Tool)	Tracker set-up	Done	Done	Dec 31			
		(3-1) Query sharing <> Local/CB BI	Done	Done	Done			
		(3-2) Data pulling by KR BI	Done	Done	WIP by Nov 26			
		(3-3) Campaing RR Tracker development (Shop/ RM level)	Done	Done	Dec 31			
4	RM Education in Korean	Sharing session regaring target session & workflow + weekly sync up	Done	Done	Dec 31			
5	Bi-Weekly sync-up with RMs	Based on the weekly email, collect feedback from RM's on recovery plan and archive	Done	Done	Start from Jan 1			
6	Weekly alignment meetings with local CBs	Expedite campaign execution and improve prioritization in line with local direction	Done	Done
